PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed, developed, and deployed **SAP ABAP** enhancements and customizations using **RESTful programming, CDS views, and modern extensibility** patterns; led full lifecycle implementation from requirement analysis through go-live and post-implementation support across **SAP SD, FI/CO, and MM modules**.
- Architected and implemented **SAP BTP cloud-based applications** leveraging **SAP Fiori, SAPUI5, OData services, and Business Application Studio**; delivered reusable technical frameworks adhering to **Clean Core guiding principles** and **cloud-first design patterns** for 2+ years of active platform development and automation.
- Executed **S/4HANA upgrades and ECC to S/4HANA migration projects** including code remediation, technical architecture validation, and **SAP HANA** optimization; coordinated cross-functional teams through UAT, change-control workflows, and post-go-live incident resolution in regulated production environments.
- Developed and maintained integration architectures using **SAP integration technologies (IDocs, RFC, BAPI, SOAP, REST APIs)** to orchestrate data flows across **SAP Cloud Platform, RISE, and interconnected enterprise business systems**; ensured system reliability and regulatory compliance through **monitoring, logging, and incident response**.
- Provided technical leadership and code review mentorship to junior developers, enforcing adherence to **ABAP best practices, coding standards, and performance optimization**; fostered continuous learning culture through design documentation, technical specifications, and hands-on guidance on **RAP, RICEFW, and OData development patterns**.
- Collaborated with functional teams, project managers, and business stakeholders to translate business requirements into technical solutions; produced comprehensive technical documentation including **design specifications, test plans, user manuals, and deployment guides** for **SAP Build Work Zone** and downstream business-user enablement.

SKILLS

SAP Technologies – SAP ABAP, SAPUI5, SAP Fiori, OData services, CDS views, RESTful programming, modern extensibility, RAP, RICEFW.

SAP BTP & Cloud Platform – SAP BTP application development, SAP Business Application Studio, SAP Build Work Zone, SAP Cloud Platform, RISE, SAP HANA, S/4HANA.

SAP Integration & Modules – IDocs, RFC, BAPI, SOAP, REST APIs, SAP SD, SAP MM, SAP FI/CO, ECC to S/4HANA migration, code remediation.

Software Development & Architecture – Full lifecycle SAP project implementation, system design, cloud-based application architecture, Clean Core principles, global reusable frameworks, code reviews, best practices enforcement.

Programming & Databases – Java Spring Boot, Python, SQL, PostgreSQL, MySQL, Oracle, Git, GitHub Actions, CI/CD, Jenkins.

Enterprise Systems & Change Management – ERP integration support, change-control management, UAT coordination, post-implementation support, cross-system data flows, regulatory compliance.

Monitoring, Support & Documentation – Production support, incident management, technical documentation, design specifications, user manuals, Splunk, Dynatrace, AWS (EC2/S3/Lambda/CloudWatch).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021

PROJECTS

SAP SWIFT Messaging & Payments Operations Dashboard (HCL Technologies)

- Engineered and maintained production **SAP integrations** with **SWIFT messaging infrastructure (MT/MX formats)** supporting real-time payments operations visibility, transaction-flow dashboards, and operational alerting for a Tier-1 banking client.
- Implemented **OData services** and **REST API** integrations to orchestrate data flows from **SAP SD and FI/CO modules** into enterprise payment-processing systems; ensured **SEPA, ISO 20022 message format compliance, and cross-border payments processing** workflows aligned with regulatory requirements.
- Delivered technical mentorship on **SAP ABAP enhancements, RESTful programming patterns, and CDS views** for payments domain; conducted code reviews ensuring adherence to standards; produced technical specifications and design documentation for **S/4HANA readiness assessments** and system upgrades.

SAP BTP Cloud Migration & Modernization Program (HCL Technologies)

- Led design and development of **SAP BTP cloud-based applications** using **SAPUI5, SAP Fiori, OData, and Business Application Studio**; migrated legacy **ERP integrations (IDocs, RFC, BAPI)** to **SAP Cloud Platform REST API patterns** achieving **30%** reduction in integration latency and **Clean Core compliance**.
- Architected reusable technical frameworks adhering to **cloud-first design principles** for **SAP Build Work Zone** deployments; coordinated full-lifecycle implementation including requirement analysis, UAT, change-control workflows, and post-go-live support across enterprise business systems.
- Mentored junior developers on **ABAP best practices, modern extensibility, RAP, and RICEFW patterns**; established coding standards and performance optimization guidelines; maintained comprehensive technical documentation for onboarding and knowledge transfer across global teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
