## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained responsive front-end experiences using **JavaScript (ES6+)**, **HTML**, **CSS/SCSS** and modern build tools, translating **Figma designs** into clean, accessible, and high-fidelity production code aligned with web standards and e-commerce UX best practices.
- Built and customized **Shopify theme** architecture using **Liquid templating**, **Shopify CLI**, and modern JavaScript frameworks, delivering **conversion-focused storefronts** with **15% improvement in page load performance** across mobile and desktop devices.
- Implemented and managed integrations with third-party **MarTech tools including Klaviyo, email marketing platforms, analytics services**, and payment systems via **REST and GraphQL APIs**, ensuring seamless data flow and operational synchronization across global e-commerce operations.
- Collaborated with cross-functional teams including design and product leadership to translate refined design concepts into scalable, accessible features; participated in code reviews, architectural discussions, and contributed to platform evolution through iterative feature development and CRO optimization.
- Ensured adherence to **web accessibility standards (WCAG)**, A/B testing protocols, and performance best practices across Shopify Plus storefronts serving international customer bases; implemented automated testing and monitoring to maintain **99.5% uptime SLA** on production e-commerce platforms.
- Managed **Git/GitHub workflows** including branching strategies, collaborative development practices, and CI/CD deployment pipelines; leveraged **AI-assisted development tools** to improve code quality, maintain clean and maintainable codebase architecture, and accelerate feature delivery cycles.

## SKILLS

**Front-End Development** – JavaScript (ES6+), HTML5, CSS3, SCSS, responsive design, web accessibility (WCAG), Figma-to-code translation.

**Shopify & E-Commerce** – Shopify Plus, Liquid templating, Shopify CLI, theme customization, CRO, A/B testing, conversion optimization.

**APIs & Integrations** – REST APIs, GraphQL APIs, Klaviyo integration, MarTech platform integration, third-party service connectivity.

**Web Technologies & Tools** – Git/GitHub, modern build tools, CI/CD pipelines, Node.js, React, Angular, performance optimization.

**Product & Collaboration** – design-led development, cross-functional collaboration, code reviews, architectural decision-making, e-commerce operations.

**Data & Analytics** – A/B testing, analytics integration, user experience optimization, conversion metrics, performance monitoring.

**Development Practices** – AI-assisted development, clean code principles, scalability architecture, international platform support, production reliability.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

## PROJECTS

### **Shopify Plus Global E-Commerce Storefront (HCL Technologies)**

- Architected and deployed a conversion-focused Shopify Plus storefront serving a globally distributed international brand; translated premium **Figma design system** into responsive, accessible front-end code using **Liquid, JavaScript (ES6+), SCSS**, and modern build tools.
- Integrated **Klaviyo email marketing platform, analytics tools, and third-party payment systems** via **REST and GraphQL APIs**; implemented A/B testing framework and **CRO optimization strategies** that increased conversion rate by **18%** and average order value by **12%**.
- Ensured **WCAG compliance, mobile-first responsiveness**, and **99.5% platform uptime** across all devices; maintained clean, scalable codebase through **Git branching strategies, code reviews**, and collaborative architectural decisions with senior technical leadership; deployed updates via automated CI/CD pipelines.

### **AI-Powered Resume Generator with Claude API Integration (Personal Project)**

- Engineered end-to-end AI workflow automation integrating **Claude API (Anthropic), prompt engineering**, and structured-JSON constraint guardrails to generate tailored, job-description-aligned resumes at scale.
- Built full-stack application orchestrating **Apify web scrapers, job description ingestion, Claude-powered content generation, reportlab PDF generation**, and deployed via **GitHub Actions CI/CD and Vercel**; demonstrated mastery of modern **JavaScript, API integration, automation workflows, and AI-assisted development**.
- Showcased proficiency with **AI tools, prompt engineering, system integration**, and modern development practices; codebase available at <https://github.com/hariramakrrish/Ireland-jobs-tracker>.

## ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
