PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed end-to-end ETF lifecycle operations including order placement, settlement of burst transactions, and collateral management for global fund clients; monitored incoming cash receipts on ETF orders and reconciled collateral flows across **PostgreSQL** and **Oracle** databases, achieving **99.2% settlement accuracy**
- Completed Portfolio Composition File (PCF) analysis and troubleshooting for cross-border ETF transactions; built **Power BI** dashboards to surface PCF validation errors, trade discrepancies, and settlement status in real-time, reducing client inquiry resolution time by **40%**
- Researched and resolved client inquiries regarding trade and settlement activities through systematic root-cause analysis; documented resolution workflows in **Confluence** and created knowledge-base training materials for **12+ internal partners** across Client Services, Custody, and Fund Accounting teams
- Built relationships with J.P. Morgan's Global ETF Clients, Authorized Participants, and External Vendors; coordinated UAT support and post-implementation triage across interconnected fund administration systems, managing change-control and regulatory compliance requirements in production environments
- Drove process efficiencies and efficiency metrics reporting using **Python** ETL pipelines and **SQL** data validation; automated daily settlement reporting and SLA tracking via **Jenkins** CI/CD pipelines, reducing manual reporting overhead by **35 hours per month**
- Supported new business initiatives and Authorized Participant on-boards by collaborating with Product Development and Technology teams; ensured successful development and implementation of new ETF product enhancements through requirements analysis, testing coordination, and risk mitigation in GDPR-regulated financial services environments

SKILLS

ETF & Fund Operations – ETF lifecycle management, order placement, settlement of burst transactions, collateral management, Portfolio Composition File (PCF) analysis, basket settlement services, Authorized Participant on-boarding.

Financial Services & Payments – fund accounting, transfer agency operations, global custody, SWIFT messaging, ISO 20022 message flows, SEPA payments, cross-border payments, payments processing, reconciliation workflows, regulatory compliance, GDPR, audit trails.

Data Analysis & Business Intelligence – Power BI dashboards, Tableau, Power Query ETL, DAX measures, data modelling, statistical analysis, A/B testing, time-series analysis, machine learning fundamentals, exploratory data analysis.

Database & Data Engineering – PostgreSQL, MySQL, Oracle, SQL ad-hoc queries, data validation, schema changes, Python data pipelines, ETL workflows, data warehousing, pandas, NumPy, scikit-learn.

Software Development & Cloud – Java Spring Boot, REST APIs, system integrations, AWS (EC2, S3, Lambda, CloudWatch), Docker containerisation, CI/CD (Jenkins, Git), Linux, shell scripting, log analysis.

Enterprise & Operations – ERP integration, change-control management, SLA management, P1/P2 incident response, production support, Splunk, Dynatrace monitoring, Jira, Agile/Scrum, cross-functional collaboration.

Communication & Problem-Solving – analytical problem-solving, written and verbal communication, presentation skills, multi-team influence, relationship building with internal and external stakeholders, adaptability to fast-paced environments.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

ETF Trade & Settlement Operations Dashboard (HCL Technologies)

- Designed and deployed a **Power BI** operational dashboard to monitor end-to-end ETF trade lifecycle, settlement status, collateral flows, and PCF validation errors for a global banking client; integrated **SQL** data models across **PostgreSQL** and **Oracle** sources
- Implemented automated **Python** ETL pipelines using **pandas** and **NumPy** to ingest daily settlement reports, validate transaction accuracy, and flag discrepancies; reduced manual data processing time by **45%**
- Orchestrated cross-functional delivery with Client Services, Custody, and Fund Accounting teams; created Confluence documentation and user training guides enabling Authorized Participants to self-serve on PCF analysis and SLA reporting

Payments Operations & Change Management Workflow (HCL Technologies)

- Supported production monitoring and incident management for enterprise payments and fund operations systems using **Splunk**, **CloudWatch**, and **Dynatrace**; managed P1/P2 incident response and SLA compliance in GDPR-regulated financial services environments
- Automated change-control workflows and post-implementation triage using **Jenkins** CI/CD pipelines and **shell scripting**; coordinated UAT across interconnected ERP and fund administration systems, achieving **zero post-go-live critical defects** on **8+ product releases**
- Built **REST API** integrations and **SQL**-based reconciliation jobs to synchronize settlement data across Authorized Participants and external vendors; improved end-to-end settlement cycle time by **2 business days**

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
