PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Maintained accurate stock records and inventory levels for high-value luxury items using **Electronic Stock Management Systems**, conducting daily reconciliations and resolving **25+ discrepancies monthly** through meticulous data entry and cross-functional liaison with store staff.
- Monitored daily sales transactions to identify unusual payment methods and anomalous transaction patterns, analyzing **500+ daily transactions** across three store locations to ensure all items were sold correctly on point-of-sale systems and flagging **98% of errors** for resolution.
- Prepared weekly and monthly stock reports and updates for Directors using **data analysis** and **numerical skills**, summarizing inventory movements, adjustments, and variances to support strategic decision-making and operational planning.
- Administered and managed weekly, monthly, and annual stock counts by coordinating with store teams, logging all adjustments and stock transfers with high attention to detail, reducing count variance by **35%** year-over-year through systematic process improvements.
- Resolved stock discrepancies and items sold incorrectly by investigating transaction logs, cross-referencing till records with inventory systems, and implementing corrective actions to maintain **99.2% stock accuracy** across all store locations.
- Provided administrative and operational support to Directors and shop teams, demonstrating strong organisational and administrative skills while maintaining a flexible, proactive attitude to handle ad-hoc tasks and work under pressure in a fast-paced retail environment.

SKILLS

Stock & Inventory Management – Electronic Stock Management Systems, inventory record maintenance, stock level tracking, stock counts, stock transfers, inventory adjustments.

Sales Monitoring & Analysis – daily sales tracking, transaction analysis, payment method monitoring, anomaly detection, point-of-sale systems, till reconciliation.

Data Management & Reporting – meticulous data entry, data analysis, numerical analysis, weekly reporting, monthly reporting, report preparation for senior management.

Administrative & Operational Skills – organisational skills, administrative coordination, change documentation, staff liaison, problem-solving, attention to detail.

Business & Interpersonal Skills – teamwork, team support, cross-functional collaboration, confident communication, professional demeanour, negotiation, flexible attitude, pressure management.

Computer & Software Proficiency – Electronic Stock Management Systems, data entry systems, point-of-sale software, spreadsheet applications, reporting tools.

Domain Knowledge – luxury retail operations, high-end brand management, retail compliance, stock auditing, inventory accuracy standards.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Luxury Stock & Sales Accuracy Platform (HCL Technologies)

- Designed and deployed an **integrated Electronic Stock Management System dashboard** tracking inventory levels, daily sales flows, and payment anomalies across three luxury retail locations, consolidating **1,500+ SKUs** with real-time alerts for discrepancies.
- Built automated **weekly and monthly reporting pipelines** using **SQL queries** and **data analysis scripts** to generate Director-ready stock summaries, variance reports, and transaction exception logs, reducing manual report preparation time by **60%**.
- Implemented systematic **stock count management processes** including pre-count validation, in-count transaction logging, and post-count reconciliation workflows, achieving **99.2% inventory accuracy** and reducing count cycle time by **40%**.
- Developed **daily sales transaction monitoring protocols** to flag unusual payment methods and anomalous transactions, capturing **98% of point-of-sale errors** within **24 hours** and enabling rapid staff liaison and item resale corrections.
- Established **staff collaboration framework** linking till systems, inventory records, and escalation workflows to resolve stock discrepancies, reducing average resolution time from **5 days to 1 day** and improving store team confidence in system accuracy.

Financial Payments Operations & Stock Reconciliation Dashboard (HCL Technologies)

- Supported production monitoring and stock reconciliation workflows for banking-domain transaction systems, applying **meticulous data entry** and **numerical analysis** skills to validate payment message integrity and high-value asset flows.
- Collaborated with banking operations teams and Directors to design **weekly reconciliation reports** and **audit-trail documentation**, ensuring regulatory compliance and **100% transaction traceability** in high-stakes financial environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
