PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided Tier 1 and Tier 2 support for enterprise HR, payroll, and financial systems at HCL Technologies, diagnosing and resolving **system configuration issues** with **95% first-contact resolution rate** and reducing average incident resolution time by **40%** through root-cause analysis and escalation management.
- Performed **data integrity audits** and **compliance testing** across production HR and payroll platforms, identifying and correcting data inconsistencies that prevented **\$250K+ in payroll processing errors** and maintaining **100% regulatory compliance** with financial services audit requirements.
- Configured and maintained **standard and ad hoc reporting** using **SQL, Python scripting**, and **Power BI dashboards** to deliver **payroll accuracy reporting** and **HR analytics** for leadership and stakeholder decision-making, reducing manual report generation by **60%**.
- Supported **system configuration cleanup**, **regression testing**, and **user acceptance testing (UAT)** for enterprise system patches, releases, and policy changes across Core HR, Time & Attendance, Payroll, and Talent modules, ensuring **zero post-deployment incidents**.
- Collaborated cross-functionally with **HR Services, Payroll, and HRIS leadership** to identify process improvements, document **standard operating procedures**, and eliminate recurring manual workarounds, reducing operational friction by **35%** and improving system usability.
- Monitored and validated **payroll accuracy** through proactive data review, compliance testing, and validation checks aligned with regulatory and policy requirements, delivering consistent and predictable system performance for **500+ employees** across multiple jurisdictions.

SKILLS

HRIS & HR Systems – Dayforce platform support, HR and payroll processes, Core HR configuration, Time & Attendance systems, Payroll systems, Talent module configuration.

System Support & Troubleshooting – Tier 1 and Tier 2 support, system configuration, issue diagnosis and resolution, root-cause analysis, escalation management, regression testing.

Data Integrity & Compliance – Data audits, validation checks, compliance testing, payroll accuracy verification, regulatory compliance, data quality assurance.

Reporting & Analytics – Power BI, SQL, Python scripting, ad hoc reporting, dashboard design, data visualization, payroll analytics, HR reporting.

Testing & Quality Assurance – User acceptance testing (UAT), system configuration testing, release validation, patch testing, policy change testing.

Collaboration & Documentation – Cross-functional partnership, standard operating procedures, user guides, stakeholder communication, process improvement.

Technical & Data Skills – SQL (PostgreSQL, MySQL, Oracle), Python, Power BI, data modelling, ETL workflows, Linux, Git, Jira.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Enterprise HR & Payroll System Support (HCL Technologies, Sep 2021 – Jan 2025)

- Delivered comprehensive **Dayforce platform support** across **Core HR, Time & Attendance, and Payroll modules**, resolving configuration issues, performing data audits, and conducting **regression testing** for system patches and releases affecting **500+ users**.
- Designed and maintained **Power BI dashboards** for **payroll accuracy reporting, HR analytics**, and compliance monitoring, enabling leadership to track key HR metrics and make data-driven decisions with **99.5% data accuracy**.
- Implemented **data validation checks** and **compliance testing protocols** to identify and remediate payroll processing errors before deployment, preventing **\$250K+ in potential financial losses** and maintaining regulatory compliance.
- Partnered with **HR Services and Payroll teams** on **user acceptance testing (UAT)**, issue resolution, and process improvements, documenting **standard operating procedures** and reducing manual workarounds by **35%**.

Financial Services HRIS Optimization Project (HCL Technologies, 2023 – 2024)

- Led configuration and maintenance of **HRIS system modules** supporting a major financial services banking client, performing **system configuration cleanup** and **data integrity audits** to ensure **100% compliance** with regulatory requirements including GDPR and financial audit standards.
- Configured **standard and ad hoc Dayforce reports** and **HR dashboards** using **SQL** and **Power BI** to deliver real-time visibility into payroll operations, Time & Attendance accuracy, and HR metrics, reducing report generation time by **60%**.
- Executed **regression testing** and **policy change testing** across interconnected HR, payroll, and financial systems, ensuring **zero post-implementation issues** and maintaining consistent system reliability for **24/7 operations** in a highly regulated environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
