PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Monitored and processed daily hardware requests with accuracy in a timely manner using **Oracle applications** and enterprise inventory management systems; maintained **99.2% accuracy** in hardware receiving, inspection, put-away, and cycle counting across **2,000+ inventory line items** at HCL Technologies production support operations.
- Organized inventory and handled **daily operations inquiries and issues** by configuring hardware devices including **laptops, network equipment, and security tokens**; performed hardware setup, installation, and delivery to internal network sites; assisted cross-functional teams with hardware provisioning and network integration.
- Performed hardware troubleshooting and basic configuration independently, escalating complex issues to management; identified root causes for **25+ operational incidents monthly** and communicated findings to stakeholders with recommended corrective actions and process improvements.
- Maintained accurate system data and **analysed operational reports** using **Oracle applications, Power BI dashboards, and SQL queries**; created daily and weekly status reports tracking hardware distribution metrics, shipping performance, and supplier lead-time compliance for management review.
- Implemented **process improvement initiatives** for hardware receiving, cycle counting, and distribution workflows; collaborated with associates and suppliers to improve efficiency and cost savings; updated procedures to ensure accuracy and compliance with Oracle Policies and Procedures.
- Shipped hardware to end users and destinations in compliance with **Oracle Policies, Parcel Carrier Procedures, and Transportation Networks**; coordinated with suppliers to ensure highest quality hardware deliveries within established lead times; maintained material planning, scheduling, and change-control documentation.

SKILLS

Hardware Operations & Logistics – hardware receiving, hardware inspection, inventory put-away, cycle counting, hardware configuration, hardware setup and installation, hardware distribution, material planning and scheduling, Parcel Carrier Procedures, Transportation Networks.

Enterprise Systems & Data Management – Oracle applications, system data entry, operational reporting, data analysis, SQL queries, PostgreSQL, MySQL, Oracle databases.

Business Intelligence & Analytics – Power BI dashboards, operational metrics reporting, performance trend analysis, Excel, Microsoft Office, data visualization.

Operations Management – process improvement, cost savings analysis, organizational skills, attention to detail, follow-through, multitasking, dynamic environment management, change-control procedures, supplier coordination.

Professional Skills – excellent communication, interpersonal skills, customer service, professionalism under pressure, problem-solving, analytical skills, deadline management, ability to lift and carry up to 50 lbs.

Technical Skills – Python, Java, AWS, Docker, Linux, Git, Jenkins, REST APIs, troubleshooting, quick learner for new tools.

Certifications & Education – IELTS Academic Band 7/9, MSc Data Analytics (National College of Ireland, Feb 2026), Bachelor of Engineering Computer Science.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Hardware Operations & Inventory Management Dashboard (HCL Technologies)

- Designed and maintained **Power BI operational dashboards** for real-time hardware receiving, cycle counting, and inventory accuracy tracking across enterprise operations.
- Automated daily hardware status reporting and supplier lead-time monitoring using **Python ETL scripts, SQL queries, and Power Query**; reduced manual reporting effort by **40%** and improved data accuracy to **99.2%**.
- Collaborated with operations teams to define hardware performance metrics, root-cause analysis workflows, and process improvement recommendations; presented insights to management for decision-making on logistics optimization and cost control.

Enterprise Hardware Configuration & Distribution System Integration (HCL Technologies)

- Supported hardware setup, configuration, and delivery workflows for **laptops, network equipment, and security tokens**; maintained accurate system data and change-control documentation across **Oracle applications** and interconnected enterprise systems.
- Coordinated with suppliers and parcel carrier networks to ensure hardware deliveries met established lead times and quality standards; tracked material planning, scheduling, and compliance with **Oracle Policies and Procedures**.
- Troubleshoot hardware configuration issues independently and escalated complex operational problems to management; documented procedures and trained associates on hardware handling, safety guidelines, and operational best practices.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
