PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved critical production issues and CVEs across enterprise Java/Python applications using **automated testing frameworks (PyTest)** and **CI/CD pipelines (Jenkins, GitHub Actions)**, reducing mean time to resolution by **40%** and ensuring compliance with Red Hat customer SLAs.
- Developed and executed **backports of bug fixes and security patches** to stable release streams of cloud-native applications, collaborating with **QE and DevOps teams globally** to maintain high-quality standards across **Kubernetes and OpenShift** environments.
- Built and maintained **automated test suites and continuous integration workflows** for back-end services and containerized applications using **PyTest and Docker**, integrating tests into release pipelines and improving deployment frequency by **35%**.
- Diagnosed root cause of production failures in **Kubernetes/OpenShift deployments** through log analysis, performance monitoring with **CloudWatch and Dynatrace**, and cross-system tracing across **AWS cloud services (EC2, S3, Lambda)**.
- Prepared release pipeline automation and builds creation for enterprise software using **Jenkins CI/CD, Git branching strategies, and infrastructure-as-code practices**, reducing manual deployment overhead by **50%**.
- Led patch review processes and contributed to security threat response for **extended life streams** of distributed systems, ensuring regulatory compliance and audit trail requirements aligned with enterprise customer expectations.

SKILLS

Programming Languages – Python, Go, Java, Shell scripting.

Automated Testing & QA – PyTest, Cypress, test automation frameworks, test plan development, test case execution.

CI/CD & Release Engineering – Jenkins, GitHub Actions, GitLab CI, Git, release pipeline preparation, builds creation, patch delivery.

Cloud-Native & Container Technologies – Kubernetes, OpenShift, Docker, containerization, cloud-native application deployment.

Cloud Services & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), GCE, Azure, infrastructure monitoring.

Backend Development & API Integration – Spring Boot, REST APIs, FastAPI, Flask, system integrations, distributed systems.

Data & Observability – SQL (PostgreSQL, MySQL, Oracle), Splunk, Dynatrace, CloudWatch, log analysis, performance monitoring.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Red Hat OpenShift AI Sustaining Engineering – CVE & Bug Fix Backport Automation (HCL Technologies)

- Architected and deployed **automated testing framework (PyTest)** to validate CVE and security patch backports across multiple stable release streams of Red Hat OpenShift AI, reducing manual QA effort by **45%**.
- Developed **CI/CD pipeline orchestration (Jenkins, GitHub Actions)** for patch review, test execution, and release pipeline preparation, enabling **24-hour turnaround** for critical security fixes to production customers.
- Collaborated with **Product Engineering, QE, and DevOps teams** to diagnose root causes of failures in **Kubernetes/OpenShift** environments, implement backports, and monitor continuous integration quality metrics across extended life streams.

Ireland Jobs Tracker – AI-Driven Resume & Test Automation Orchestration

- Built end-to-end automation workflow integrating **Claude API (Anthropic)** with structured prompt engineering, **GitHub Actions CI/CD**, and **Vercel deployment**, orchestrating data ingestion, intelligent content generation, and release pipeline execution.
- Engineered **automated testing and validation gates** into GitHub Actions workflows to ensure output quality before production deployment, implementing constraint guardrails and automated test assertions.
- Demonstrated hands-on expertise in **CI/CD automation, API integration, and release pipeline development** through full-stack implementation spanning backend orchestration, automated testing, and cloud-native deployment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
