PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed and validated large datasets across enterprise business systems, identifying **data quality issues** with **98% accuracy** through web-based research, **SQL queries**, and **critical thinking** to bring issues to resolution.
- Performed root cause analysis on **production data anomalies** and operational issues, escalating findings to appropriate technical and business components, reducing incident resolution time by **35%**.
- Applied data analysis and trend identification to **payment processing workflows** and transaction datasets, drawing conclusions from patterns to recommend process improvements and system optimizations.
- Researched and evaluated data quality across **PostgreSQL, MySQL, and Oracle** databases using **web-based research tools** and **spreadsheet analysis**, validating **SWIFT messaging** and **ISO 20022 compliance** in financial datasets.
- Processed and validated business applications and data feeds through **Python ETL pipelines** and **Power BI dashboards**, ensuring data integrity and identifying high-level trends to support stakeholder decision-making.
- Performed software usability testing and provided detailed feedback on web-based applications, documentation platforms, and data-processing tools, contributing to improvements in system usability and user experience.

SKILLS

Data Analysis & Validation – web-based research, data quality assessment, trend identification, root cause analysis, pattern recognition, large dataset handling, spreadsheet analysis.

Database & SQL – PostgreSQL, MySQL, Oracle, SQL query writing, schema analysis, data validation, ad-hoc reporting.

Business Data Tools – Power BI, Tableau, Power Query, DAX, data modelling, operational dashboards, interactive reporting.

Programming & Automation – Python, pandas, NumPy, ETL pipelines, data processing, scripting, automation workflows.

Business Systems & Domain Knowledge – SWIFT messaging (MT/MX), ISO 20022 message flows, payments processing, SEPA, financial services operations, ERP integration, regulatory compliance.

Research & Collaboration – web-based map applications, social media research, cross-functional teamwork, independent work, technical documentation, Jira, Confluence.

Additional – English (fluent, IELTS Band 7), Linux, Git, Docker, AWS, excellent attention to detail, hybrid work readiness.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

SWIFT Payments Operations Dashboard (HCL Technologies)

- Researched, analyzed, and validated **SWIFT message formats (MT/MX)** and **ISO 20022 payment flows** to ensure data accuracy and compliance with banking regulations.
- Identified high-level data trends in transaction processing and operational metrics, escalating root cause issues to banking operations and technical teams for resolution.
- Processed business application data feeds and validated transaction datasets across multiple databases, achieving **99.2% data quality** in production payment monitoring.
- Performed critical analysis on payment message anomalies and data discrepancies using **web-based research** and **SQL analysis**, reducing incident investigation time by **40%**.

Enterprise Data Analysis & Business Intelligence Platform (MSc Data Analytics, NCI)

- Analyzed large enterprise datasets, identified patterns and trends, and drew conclusions using **Python (pandas, NumPy, scikit-learn)**, **SQL**, and statistical methods.
- Designed and developed **Power BI** and **Tableau interactive dashboards** with **Data modelling** and **Power Query ETL** to validate data quality and support business stakeholder decision-making.
- Performed web-based research and data quality assessment across multiple sources, synthesizing findings into actionable recommendations and processing business application datasets for analysis.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
