PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **global operating models** for transfer agency operations across **4+ client onboarding** projects, collaborating with Sales, Service Delivery, and Client Services to establish exact requirements and operational readiness workflows, achieving **100% UAT sign-off** and zero post-launch operational gaps.
- Led **Model Office Testing (UAT)** strategy and execution for new client launches and system enhancements, coordinating test plans, defect tracking, and issue management across interconnected **ERP systems** and transfer agency platforms, resulting in **98% test case pass rate** and **30% reduction** in critical production incidents.
- Conducted gap analysis, due diligence, and operational readiness assessments for fund industry client conversions; proactively identified and documented project risks with quantified mitigation steps, ensuring **Risk and Compliance** alignment and regulatory sign-offs throughout project lifecycle.
- Designed and documented **conversion operating models**, handoff procedures between global locations, and **Non-Standard Process reports** for transfer agency operations; facilitated workshops with internal teams and external clients to agree on solutions and streamline operational workflows.
- Built **operational dashboards** and **status reporting** frameworks using **Power BI** and **SQL data modelling** to track Model Office progress, conversion readiness, and onboarding metrics; published reports to stakeholders across transfer agency, client management, and project governance.
- Improved onboarding processes by documenting comprehensive checklists, procedures, and user guides; streamlined **requirements documentation** templates across transfer agency project office structure, reducing onboarding cycle time by **25%** and ensuring all standard templates and governance controls were applied.

SKILLS

Operations & Business Analysis – Operations Readiness, User Acceptance Testing (UAT), Model Office Testing, transfer agency operations, client onboarding, gap analysis, due diligence, operational modelling, global operating models, change management.

Fund Industry & Transfer Agency – transfer agency products and services, fund administration workflows, client conversion management, multi-location handoff procedures, fund operations compliance, regulatory requirements.

Project Management & Governance – project workstream coordination, issue tracking and management, risk identification and mitigation, requirements documentation, stakeholder management, client project governance, project office structure.

Data Analysis & Reporting – Power BI dashboards, operational reporting, SQL data modelling, ETL workflows, data validation, status reporting, metrics tracking, Power Query.

Systems & Integration – ERP system support, system integrations, REST APIs, transfer agency platforms, database-level data flows, PostgreSQL, MySQL, Oracle, interconnected systems.

Technical Skills – SQL, Python scripting, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins CI/CD, Jira, Confluence, data warehousing.

Compliance & Risk – regulatory compliance, audit trails, risk management, Non-Standard Process documentation, Risk and Compliance review coordination, GDPR, data protection.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Transfer Agency Client Onboarding Program – SWIFT Payments Operations Dashboard (HCL Technologies)

- Led operational readiness and UAT coordination for multi-year new client launch supporting **SWIFT messaging** (MT/MX formats), **ISO 20022 message flows**, and **SEPA/cross-border payments** processing in a **Tier-1 banking environment**.
- Designed and documented the **global operating model** for payments operations across multiple locations, including transaction-flow visibility, handoff procedures, and operational alerting workflows; facilitated stakeholder workshops to agree on solutions and regulatory requirements.
- Managed **Model Office Testing** execution and defect lifecycle for system enhancements and connectivity additions; coordinated test plans with Operations teams, tracked **100+ test cases**, and ensured all critical payment-processing workflows passed UAT with full compliance sign-off.
- Conducted gap analysis and operational readiness assessments to identify process risks, change-control requirements, and SLA implications; documented **Non-Standard Process reports** for Risk and Compliance review, resulting in zero post-go-live operational exceptions.
- Built **operational dashboards** using **Power BI** to track payment message volumes, transaction success rates, and operational alerting metrics; delivered stakeholder reports on Model Office progress, client readiness, and production-support escalations.

Transfer Agency ERP Integration & Client Conversion Readiness (HCL Technologies)

- Designed and documented **conversion operating models** and global handoff procedures for **2 major client conversions** across **interconnected ERP systems**, transfer agency platforms, and operational workflows; ensured all system integrations and cross-location handoffs were tested and validated in Model Office.
- Coordinated **UAT strategy** and **Model Office Testing** across **ERP modules**, REST API integrations, and database-level data flows; managed **change-control processes** for system configuration updates and post-go-live support, achieving **zero critical defects** in production.
- Partnered with transfer agency Business Analysts to review and clarify business requirements; provided operational feedback on system designs and process flows to ensure solutions aligned with client needs and regulatory compliance standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
