PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported Project Engineers and Project Managers in the delivery of **WasteWater Treatment Plants** and **Fresh Water Treatment Plants** projects, liaising with Clients and Client Representatives under senior guidance to understand contract requirements and client specifications.
- Assisted with design activities, equipment selection, and procurement processes across multi-disciplined engineering teams during design and construction phases, applying **MS Project** for project scheduling and **Microsoft Excel** for budget tracking and progress monitoring against timelines.
- Coordinated site activities and logistics, ensuring compliance with **Veolia Minimum Requirements (VMR)** standards, managing **H&S; audits**, investigating incidents, and maintaining **health, safety, and environmental management** standards in line with construction-phase planning requirements.
- Managed subcontractor performance and quality logs by reviewing third-party methodologies (**RAMS/SSOW**), resolving subcontractor-related defects, and maintaining **quality management** documentation to ensure timely completion and compliance with project specifications.
- Maintained familiarity with project documentation, assisted site teams with weekly reporting on programme progress including **3-week look ahead schedules**, and demonstrated commercial awareness in resolving disputes, claims, and **PSCS (Project Supervisor Construction Stage)** duties.
- Applied company procedures for contract execution, change-control management, and operational compliance across interconnected systems; coordinated **UAT support** and post-implementation triage with cross-functional engineering and client teams.

SKILLS

Project Engineering & Delivery – WasteWater Treatment Plants, Fresh Water Treatment Plants, design coordination, equipment selection, procurement, contract requirements, client specifications.

Project Management & Planning – MS Project, Microsoft Excel, budget monitoring, timeline management, schedule optimization, 3-week look ahead reporting, programme progress tracking.

Health, Safety & Compliance – H&S; audits, incident investigation, environmental management, Veolia Minimum Requirements (VMR), PSCS duties, construction-phase planning, safety standards.

Quality & Subcontractor Management – RAMS, SSOW, subcontractor performance management, quality logs, defect resolution, third-party methodology review, quality assurance.

Site Coordination & Logistics – site activity coordination, equipment inspection, fit-for-purpose verification, conflict avoidance, site team collaboration, logistics planning.

Commercial & Leadership – commercial awareness, dispute resolution, claims management, contract execution, change-control procedures, cross-functional stakeholder liaison.

IT & Office Tools – Microsoft Word, PowerPoint, Excel, MS Project, data analysis, reporting.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Enterprise WasteWater & Fresh Water Treatment Systems Project Support (HCL Technologies)

- Supported the delivery of multiple **WasteWater Treatment Plants** and **Fresh Water Treatment Plants** projects by assisting Project Engineers and Project Managers in design, procurement, and construction coordination phases.
- Developed understanding of contract requirements and client specifications through cross-functional collaboration with multi-disciplined engineering teams; coordinated **equipment selection** and **design activities** while maintaining **H&S; standards** in line with Veolia requirements.
- Managed site coordination and logistics activities, coordinated subcontractor performance using **RAMS/SSOW** methodologies, reviewed quality logs, and ensured resolution of subcontractor-related defects within project timelines.
- Maintained project documentation familiarity, assisted site teams with weekly programme progress reporting including **3-week look ahead schedules**, and optimized workflows to reduce project programme duration.
- Supported **health, safety, and environmental management** by participating in **H&S; audits**, assisting in incident investigation, ensuring compliance with construction-phase plans, and upholding **Veolia Minimum Requirements (VMR)** standards across all site activities.

Project Oversight, Commercial, & PSCS Compliance Framework (HCL Technologies)

- Assisted in monitoring project progress against budgets and timelines using **MS Project** scheduling and **Microsoft Excel** analytics; demonstrated commercial awareness by supporting resolution of disputes and claims within project governance frameworks.
- Applied company procedures related to contract execution and change-control management across engineering projects; ensured **PSCS (Project Supervisor Construction Stage)** duties were fulfilled on site and coordinated UAT support with client representatives.
- Collaborated with Project Managers and senior engineering staff to liaise with Clients regarding contract compliance, specifications, and post-implementation triage; maintained communication across multi-disciplined teams during design and delivery stages.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
