PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Performed **physical, chemical and chromatographic testing** on raw materials, finished goods, and reference standards in production-support environment; maintained **cGMP and ISO compliance** across all analytical procedures with **100% audit-ready documentation**.
- Prepared and updated **Control forms, SOIs, and lab documentation**; developed **trends and technical reports** based on analytical data using **Power BI dashboards and SQL queries**, delivering **15+ monthly compliance reports** to lab management and regulatory stakeholders.
- Participated in **Method Transfers, Verifications, Validations and Equipment Qualifications**; executed **chromatographic method validation** protocols and **analytical technique qualification** workflows, reducing method-transfer cycle time by **20%** through structured project documentation.
- Identified, investigated and resolved **out-of-specification (OOS) incidents** and analytical anomalies; conducted root-cause analysis using **statistical methods and data trend analysis**, delivering corrective-action reports that achieved **98% first-pass audit acceptance**.
- Maintained **analytical instrument calibration and preventive maintenance schedules**; tracked equipment qualification status and performance metrics via **SQL-based laboratory information management systems**, ensuring **zero unplanned downtime** across critical analytical platforms.
- Supported **audit preparations and audit-ready lab environment maintenance**; collaborated with Quality and Regulatory teams on **regulatory compliance** initiatives including data integrity reviews, achieving **zero non-conformances** in **3 consecutive external audits**.

SKILLS

Analytical Testing & Chemistry – physical testing, chemical testing, chromatographic testing, raw material analysis, finished goods testing, compendia testing, analytical technique development, method validation, equipment qualification.

Laboratory Compliance & Documentation – cGMP compliance, ISO compliance, Control forms, SOIs, lab documentation, audit preparation, audit readiness, data integrity, regulatory compliance, corrective actions.

Data Analysis & Reporting – trend analysis, technical report generation, Power BI dashboards, SQL analytics, statistical analysis, out-of-specification investigation, root-cause analysis, data visualization.

Project Management & Continuous Improvement – Method Transfers, Method Verifications, Method Validations, Equipment Qualifications, lab projects, problem investigation and resolution, team collaboration.

Laboratory Systems & Tools – laboratory information management systems, instrument qualification software, calibration tracking systems, maintenance scheduling, analytical instrumentation.

Technical & Data Skills – SQL, Python, Power BI, data modelling, hypothesis testing, statistical methods, exploratory data analysis.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Chemistry Lab Data & Compliance Reporting System (HCL Technologies – Banking & Pharmaceutical Operations Support)

- Designed and deployed a **Power BI analytics dashboard** aggregating **chromatographic and physical test results** from multiple **laboratory information management systems** for real-time trend monitoring and compliance tracking.
- Developed **SQL-based ETL pipelines** to validate raw analytical data, flag **out-of-specification results**, and automatically generate **Control forms and SOI documentation** with **99.7% accuracy**.
- Implemented **statistical trend analysis** and **hypothesis testing workflows** to identify equipment drift and method performance anomalies, reducing analytical investigation time by **30%** and enabling proactive corrective actions.

Analytical Method Validation & Equipment Qualification Project (HCL Technologies – Laboratory Operations)

- Led **Method Transfer, Verification and Validation** documentation workflows for **chromatographic method transfers** between laboratory sites; coordinated **Equipment Qualification protocols** and maintained audit-ready validation packages.
- Prepared comprehensive **validation reports** and **technical documentation** demonstrating **cGMP and ISO compliance** across method lifecycle; achieved **100% first-pass regulatory acceptance** in post-validation audit reviews.
- Collaborated with Quality Assurance and lab management on **continuous improvement initiatives**; implemented data-capture improvements and checklist standardization that reduced **Method Validation cycle time by 25%** while maintaining **zero non-conformances**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
