PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Prepared and validated **monthly management accounts** and **financial reports** for enterprise banking clients, ensuring **100% accuracy** in balance sheet reconciliation and regulatory compliance across interconnected ERP and operational systems.
- Supported **budgeting and forecasting processes** using **Power BI** and **SQL** to model financial scenarios, variance analysis, and year-end projections; delivered **15+ monthly variance reports** flagging budget deviations within **2-day SLA**.
- Performed **financial analysis and variance reporting** on production banking systems, investigating discrepancies across payment operations dashboards and reconciling **PostgreSQL / Oracle** ledger accounts; resolved **95%** of month-end reconciliations independently.
- Assisted with **year-end audit preparation**, liaising with external auditors and maintaining **audit trail documentation** for compliance with internal controls, GDPR, and regulatory standards across payments and ERP environments.
- Maintained **accurate financial records** through **SQL data validation**, schema change management, and **change-control processes**; coordinated UAT support and post-implementation triage across interconnected business systems.
- Supported **process improvement initiatives** by automating **ad hoc financial and administrative tasks** using **Python scripting** and **scheduled reporting**; collaborated cross-functionally with banking operations teams and business stakeholders to enable data-driven decision-making.

SKILLS

Financial Analysis & Reporting – monthly management accounts, financial reports, budgeting, forecasting, variance analysis, balance sheet reconciliation, audit preparation.

Business Intelligence & Data Tools – Power BI (dashboards, DAX measures, data modelling), Tableau, SQL (PostgreSQL, MySQL, Oracle), Power Query, data warehousing.

Enterprise Systems & Finance Operations – ERP integration support, payments operations, change-control management, internal controls, regulatory compliance, GDPR, audit trails.

Programming & Automation – Python (scripting, data pipelines, ETL), SQL (ad-hoc queries, schema changes), REST APIs, Linux, shell scripting.

Banking & Payments Domain – payments processing flows, SWIFT messaging (MT/MX), ISO 20022 message structures, SEPA, cross-border payments, PSD2, reconciliation workflows.

Professional & Technical Skills – Microsoft Excel (advanced), Jira, Confluence, Git, Jenkins CI/CD, cross-functional collaboration, attention to detail, deadline management.

Certifications & Qualifications – MSc in Data Analytics (NCI, Dublin), Bachelor of Engineering in Computer Science, IELTS Academic Band 7/9.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin

02/2026

PROJECTS

Corporate Finance Reporting Dashboard (HCL Technologies – Banking Client)

- Built and maintained **Power BI dashboards** for monthly management accounts and variance reporting, integrating **PostgreSQL / Oracle** ledger data via **Power Query ETL** and **DAX measures** to track budget vs. actual across payment operations.
- Implemented **financial analysis automation** using **Python pandas and NumPy** to generate reconciliation reports and identify discrepancies; reduced month-end close time by **30%** through scheduled data pipelines and **Jenkins CI** orchestration.
- Collaborated with banking BAs and external auditors to ensure **audit-ready documentation**, compliance with GDPR and internal control standards, and cross-system data validation across ERP and payments platforms.

SWIFT Payments Operations & Process Improvement (HCL Technologies – Banking Domain)

- Supported **year-end audit preparation** and **balance sheet reconciliation** for payments operations, resolving **95%+** of account discrepancies through **SQL** root-cause analysis and change-control coordination across interconnected systems.
- Automated **ad hoc financial and administrative tasks** using **Python scripting** for ISO 20022 message flow validation and SEPA payment reconciliation; maintained audit trails and regulatory compliance documentation for payments dashboard monitoring.
- Partnered with cross-functional operations teams and business stakeholders to identify and implement **process improvement initiatives**, delivering **5+ efficiency gains** in month-end financial close and UAT coordination workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
