PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **Enterprise Risk Management (ERM) reporting dashboards** using **Power BI** and **SQL** for a banking client, delivering **monthly risk governance reports** to executive committees and regulatory bodies with **100% accuracy** and **SLA compliance**.
- Conducted **risk identification and assessment activities** across interconnected enterprise systems, including **ERP integration points**, **REST API flows**, and **ISO 20022 message processing**, producing **risk assessment documentation** and **improvement tracking reports** used by 1st and 2nd line risk teams.
- Supported **risk governance and emerging risks reporting** through structured **SQL data extraction** and **Python automation scripts**, reducing manual report preparation time by **40%** and enabling timely escalation of **regulatory compliance risks** (GDPR, payments regulations, SEPA standards) to the Chief Risk Officer.
- Collaborated with **risk oversight committees** and business stakeholders to develop **risk response recommendations**, review control effectiveness, and challenge 1st line risk mitigation proposals, delivering **10+ risk reviews** per quarter with documented follow-up and assurance actions.
- Developed **training materials**, **risk policy guides**, and **ERM framework documentation** using **Confluence** and **PowerPoint**, promoting risk culture awareness across operations and supporting **onboarding of 5+ business units** onto Group Risk Management tools and methodologies.
- Performed **risk monitoring and assurance activities** using **Splunk**, **CloudWatch**, and **Dynatrace** dashboards to track operational risk metrics, incident trends, and control performance, escalating breaches and providing **management information** to support risk governance committees.

SKILLS

Enterprise Risk Management – ERM framework implementation, risk identification and assessment, risk governance, risk response support, monitoring and assurance, emerging risks reporting, 2nd line risk oversight, 1st line risk challenge.

Risk & Compliance Domains – insurance and financial services regulation, GDPR compliance, payments processing and regulatory requirements, SEPA and cross-border payments standards, ISO 20022 message flows, banking operations, change-control management.

Data Analytics & Reporting – Power BI dashboards and DAX measures, SQL data modelling and extraction, Python data automation, risk reporting and management information, analytics for governance committees.

Business Systems & Integration – ERP systems and integration support, REST API integrations, multi-system data flows, interconnected enterprise platforms, system change coordination.

Tools & Technologies – Power BI, Tableau, SQL (PostgreSQL, MySQL, Oracle), Python, Splunk, Dynatrace, CloudWatch, Git, Jira, Confluence, AWS (EC2, S3, Lambda).

Soft Skills & Delivery – stakeholder engagement and influencing, cross-functional collaboration, governance and coordination, training delivery and materials development, communication in complex regulatory environments.

Certifications & Education – MSc in Data Analytics (NCI, Dublin), Bachelor of Engineering in Computer Science, IELTS Band 7/9, Full Stack Java Spring Boot & Angular, Web Development (UC Davis), Python Programming (University of Michigan).

EDUCATION AND TRAINING

PROJECTS

Enterprise Risk & Payments Operations Dashboard (HCL Technologies)

- Designed and deployed a **real-time risk governance dashboard** in **Power BI** and **Tableau** for a major banking client's payments operations and risk management team, tracking **SWIFT messaging transactions**, **ISO 20022 message flows**, **SEPA payment status**, and operational risk metrics across interconnected ERP and payments systems.
- Integrated **SQL queries** against **PostgreSQL** and **Oracle databases** to extract transaction-level and control-performance data; automated **ETL pipelines** using **Python** to refresh data on **15-minute cycles**, ensuring **99.5% uptime** for regulatory and governance reporting.
- Supported **risk oversight committee reporting** by delivering **emerging risks and regulatory compliance visualizations** for GDPR, payments regulations, and audit-trail management; enabled business stakeholders to identify **control gaps** and **1st line risk response effectiveness** through interactive dashboards.
- Collaborated with **risk management, operations, and compliance teams** to define risk KPIs, design assurance metrics, and implement **change-control workflows** for ERP and payments system updates; documented risk governance processes in **Confluence** for cross-functional awareness.

Risk Governance Automation & Framework Implementation (HCL Technologies & MSc Data Analytics)

- Built an **automated risk assessment and reporting framework** using **Python**, **SQL**, and **Power BI** to streamline **2nd line risk review** processes, risk identification workflows, and improvement-action tracking across **12+ interconnected business systems** and **3+ ERP integration points**.
- Engineered **data pipelines** leveraging **pandas**, **NumPy**, and **SQL** to aggregate risk assessment results, control metrics, and emerging risk indicators; generated **executive risk governance reports** with **DAX-driven measures** and **Power Query transformations** reducing report cycle time from **5 days to 8 hours**.
- Developed **training materials and policy guides** (documented in **Confluence**) on **ERM framework adoption**, **1st line risk challenge methodologies**, and **regulatory compliance standards** (ISO 20022, SEPA, GDPR); delivered workshops to **4 business divisions** on risk monitoring and assurance practices, improving framework adoption by **60%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
