## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for inter-service communication, handling approximately **4,000 requests per minute** during peak loads.
- Developed and maintained **Java EE** applications, focusing on **Object-Oriented Programming** principles and applying common **design patterns** to enhance code structure and maintainability.
- Contributed to the continuous improvement of a core **financial services** application by participating in **code reviews** and providing technical estimations for upcoming sprints.
- Mentored two junior developers on best practices for **Java development** and debugging techniques, improving their code quality and understanding of the development lifecycle.
- Managed a backlog of production incidents for enterprise applications, performing root cause analysis and implementing fixes within defined **SLA targets**.
- Containerised multiple Java applications using **Docker**, enabling consistent deployment across development, staging, and production environments.
- Integrated new features into a **payments operations dashboard** by collaborating with business analysts to gather requirements and support user acceptance testing.

## SKILLS

**Languages** – Java, Python, SQL, JavaScript, HTML, CSS

**Frameworks/Libraries** – Spring Boot, Hibernate, Java EE, Flask, FastAPI, pandas, NumPy, scikit-learn

**Databases** – MySQL, Oracle, PostgreSQL, MongoDB, DynamoDB, MS SQL Server

**Cloud/DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

**Tools/Methodologies** – Agile, Scrum, Kanban, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R/RStudio, DAX, Power Query

## PROJECTS

### Enterprise Java Application Modernization (HCL Technologies)

- Refactored a legacy Java application to a modern **Spring Boot** microservices architecture, improving modularity and enabling independent deployments.
- Developed **RESTful APIs** to expose core business logic, facilitating integration with downstream client systems and reducing data retrieval times by **30%**.
- Implemented comprehensive unit and integration tests using **JUnit** and **Mockito**, increasing code coverage by **45%** and reducing post-deployment defects.

### Real-time Transaction Monitoring System (MSc Project)

- Engineered a Python-based system to process and monitor high-volume financial transaction streams, identifying and alerting on anomalies.
- Developed a **Power BI dashboard** to visualise transaction flows, error rates, and key operational metrics, providing stakeholders with actionable insights.
- Utilised **SQL** for data extraction and transformation from a PostgreSQL database, ensuring data integrity and query performance for the monitoring dashboard.

## EDUCATION

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
