HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained CI/CD pipelines using **Jenkins** and **GitHub Actions** to automate deployments, reducing manual intervention by **40%**.
- Managed and optimized Linux infrastructure, including system administration, shell scripting for automation, and log analysis using **Splunk**.
- Implemented containerization strategies using **Docker** and deployed applications to a Kubernetes cluster, ensuring consistent environments across development and production.
- Authored **Terraform** modules to define and provision cloud infrastructure as code, enabling repeatable and reliable deployments.
- Configured and fine-tuned **Kubernetes** clusters, managing deployments, services, and ingress controllers to ensure application availability and scalability.
- Integrated **Terraform** with **GitHub Actions** for automated infrastructure provisioning and updates, streamlining the deployment workflow.
- Performed system administration and configuration management on Linux servers, ensuring high availability and security for critical infrastructure components.

SKILLS

Cloud & DevOps – Kubernetes, Docker, Terraform, AWS, Jenkins, GitHub Actions, CI/CD, Linux

Infrastructure as Code – Terraform

Containerization – Docker, Kubernetes

Operating Systems – Linux

Scripting & Automation – Shell Scripting, Python

Monitoring & Logging – Splunk, CloudWatch, Dynatrace

PROJECTS

Automated Infrastructure Provisioning with Terraform

- Designed and implemented **Terraform** modules to provision AWS infrastructure (EC2, S3, VPC) for a new microservice.
- Integrated **Terraform** with **Jenkins** pipelines to automate the deployment of infrastructure changes, ensuring consistency and reducing manual errors.
- Managed state files and configured remote backends for **Terraform** to support collaborative development on infrastructure code.

Kubernetes Cluster Management and Deployment Automation

- Deployed and managed multiple microservices within a **Kubernetes** cluster using Helm charts, ensuring high availability and scalability.
- Developed automation scripts using **Shell Scripting** and **Python** to streamline application deployments and health checks within the Kubernetes environment.
- Configured monitoring and logging for the **Kubernetes** cluster using tools like **Prometheus** and **Grafana** to ensure operational visibility.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
