

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for API backend functionalities, adhering to **OOP** principles and **design patterns**.
- Developed and maintained **Hibernate** entities and performed **JPA** operations for data persistence, ensuring efficient database interactions with PostgreSQL.
- Constructed **JUnit** and **Mockito** test suites to achieve over 90% code coverage for critical Java components, enhancing code quality and stability.
- Collaborated with product and engineering teams to define and deliver scalable API solutions, translating business requirements into technical specifications.
- Contributed to the design and operation of **GraphQL federation** and gateway architectures, enabling seamless data exposure and consumption across internal teams.
- Automated operational workflows using **Python scripting**, reducing manual intervention in system monitoring and deployment processes by approximately 30%.
- Containerized **Java Spring Boot** applications using **Docker** and deployed them to **Kubernetes** clusters, managing configurations and resource allocation.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

API Technologies – GraphQL, RESTful Services, GraphQL Federation, Schema Stitching, Query Optimization, Caching

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, Maven

Databases – PostgreSQL, MySQL, Oracle

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

PROJECTS

Enterprise Java API Gateway Development

- Engineered a **Java Spring Boot**-based API gateway to centralize external service access, implementing rate limiting and request transformation logic.
- Integrated **Hibernate** and **PostgreSQL** for managing API configuration data and user authentication credentials, supporting over 50,000 requests daily.
- Wrote comprehensive unit and integration tests using **JUnit** and **Mockito**, ensuring the gateway's reliability and maintainability under load.

GraphQL Schema Stitching Implementation for Unified Data Access

- Developed federated schemas using **GraphQL** to create a unified API layer over disparate microservices, improving developer experience for internal teams.
- Designed and implemented resolvers for key entities, optimizing query performance and reducing data fetching latency by an average of 40% for reporting dashboards.
- Containerized the GraphQL services with **Docker** and configured deployment pipelines using **Jenkins** for automated testing and release cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
