

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, designing and implementing RESTful APIs for core system functionalities.
- Engineered **Hibernate/JPA** persistence layers, optimising data access patterns and managing complex object-relational mappings for enterprise applications.
- Wrote comprehensive **JUnit and Mockito** tests for Java components, ensuring code quality and achieving over 85% unit test coverage for critical modules.
- Participated in architectural discussions and technical estimation sessions within an Agile framework, contributing to sprint planning and backlog refinement.
- Collaborated with product owners and designers to translate user stories into functional requirements, ensuring alignment with business objectives for customer-facing solutions.
- Supported System Testing and User Acceptance Testing phases by debugging issues and coordinating resolutions with quality assurance teams and business stakeholders.
- Containerised applications using **Docker** and deployed them to **AWS EC2** instances, managing basic configurations and ensuring smooth operational readiness.

SKILLS

Backend Development – Java, Spring Boot, Spring Cloud, Hibernate, JPA, REST APIs, Microservices

Frontend Development – React, Angular, HTML5, CSS3

Databases – PostgreSQL, Oracle, MySQL, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Methodologies – Agile, Scrum, TDD

Observability – Splunk, Dynatrace

PROJECTS

Java RESTful API for Enterprise Integrations

- Developed a **Java Spring Boot** application exposing RESTful endpoints to integrate disparate enterprise systems, handling approximately 1,500 requests per hour.
- Implemented a **JPA/Hibernate** data access layer for efficient interaction with a **PostgreSQL** database, managing entity relationships and transaction integrity.
- Containerised the API using **Docker**, facilitating consistent deployment across development, staging, and production environments managed via **Jenkins** pipelines.

Customer Data Service with React Frontend

- Built a customer-facing web application using **React**, enabling users to view and manage their account information through an intuitive interface.
- Developed a secure **Java Spring Boot** backend service to manage customer data, including CRUD operations and user authentication.
- Integrated the frontend with the backend API, ensuring seamless data flow and a responsive user experience for approximately 500 active users during the pilot phase.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
