+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and implemented **Kotlin** and **Java** solutions for the Toast POS hardware, focusing on performance and scalability for restaurant deployments.
- Shipped end-to-end features for guest engagement experiences, from initial design and development through to production rollout and performance monitoring.
- Collaborated with **Product**, **Design**, and **QA** teams to define requirements, refine user experience, and ensure high-quality software delivery within Agile frameworks.
- Developed and integrated with backend **REST** and **GraphQL** services, ensuring seamless data flow and functionality for customer-facing restaurant applications.
- Wrote comprehensive **unit tests** and adhered to clean code principles to maintain high code quality and facilitate incremental software delivery.
- Actively participated in Agile ceremonies, including sprint planning and retrospectives, contributing to team velocity and continuous improvement.
- Integrated **AI-assisted development tools**, including Claude Code, to explore new workflows and enhance productivity in building and debugging Android features.

SKILLS

Mobile Development – Android, Kotlin, Java, REST, GraphQL

AI/ML Tools – Claude Code, LLM-based agents

Development Practices – Agile ceremonies, Unit tests, Clean code, Code quality, Debugging

Backend Integration – REST APIs, GraphQL APIs

Cloud & Persistence – PostgreSQL, DynamoDB

PROJECTS

Restaurant Guest Engagement Platform

- Designed and developed a **Kotlin**-based Android application to enhance guest interactions within restaurant environments, integrating with backend services.
- Implemented core features for guest relationship building, including personalized offers and loyalty program access, directly impacting customer retention.
- Collaborated with UX designers to ensure an intuitive and engaging user interface, shipping iterative updates based on user feedback.

AI-Assisted Feature Development Workflow

- Explored and integrated **AI agentic development tools** (e.g., Claude Code) into the daily Android development lifecycle at HCL Technologies.
- Developed sample applications demonstrating AI-driven code generation for common Android patterns and bug resolution, reducing debugging time by approximately 15%.
- Documented best practices for using AI tools in software development for team-wide adoption and knowledge sharing.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
