HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and developed **Java Spring Boot microservices** for a core financial-services platform, focusing on **RESTful API design** and **event-driven communication**.
- Implemented **Hibernate** and **JPA** mappings for complex data models, optimizing database interactions and ensuring data integrity across multiple enterprise applications.
- Designed and executed comprehensive **unit tests** and **integration tests** using **JUnit** and **Mockito**, achieving over **85% code coverage** for new feature development.
- Mentored **three junior engineers** on **Java best practices**, design patterns, and effective debugging techniques, improving team code quality and reducing bug introduction rates.
- Conducted **code reviews** for peer engineers, enforcing coding standards, identifying potential performance bottlenecks, and mitigating technical debt across a **10-person development team**.
- Participated actively in **Agile ceremonies**, including sprint planning and estimation, translating business requirements into **sustainable technical solutions** for backend systems.
- Containerized **Java applications** using **Docker** and deployed them to **AWS EC2 instances**, establishing basic CI/CD pipelines with **Jenkins** for automated builds and deployments.

SKILLS

Languages & Frameworks – Java, Spring Boot, Hibernate, JPA, RESTful APIs, Microservices, JUnit, Mockito

Architecture & Design Patterns – SOLID principles, GoF patterns, Scalable server-side architectures, Modular code design

Development Tools & Workflow – Git, Jenkins, GitHub Actions, Docker, Code review tools, Static code analysis, Agile methodologies

Databases & Caching – SQL, NoSQL, ORM frameworks, Caching strategies

Cloud & Infrastructure – AWS, EC2, CI/CD pipelines

Soft Skills – Technical Leadership, Mentoring, Problem-solving, Analytical thinking, Communication, Ownership

PROJECTS

Enterprise Java Microservice for Transaction Processing

- Developed a high-throughput **Java Spring Boot microservice** to handle incoming financial transactions, integrating with a **PostgreSQL** database via **Hibernate**.
- Implemented **RESTful APIs** for seamless integration with existing enterprise systems and designed a robust error-handling strategy to manage transaction failures.
- Achieved p95 latency below **200ms** for critical transaction processing endpoints, ensuring adherence to strict performance SLAs for the financial operations dashboard.

Java Backend System for Operational Alerting

- Engineered a **Java EE application** leveraging **JPA** for data persistence, responsible for monitoring and alerting on operational issues within a financial services client environment.
- Built asynchronous processing capabilities using **Spring Boot** to ingest and analyze logs from multiple sources, reducing manual review time by approximately **30%**.
- Integrated with **Splunk** for log aggregation and analysis, enabling real-time alerts for critical incidents and supporting efficient root cause analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
