

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained **Java Spring Boot** REST APIs and microservices in production environments, delivering features and bug fixes while ensuring code quality through peer reviews and **Git** branching strategies.
- Implemented **Python** automation scripts and ETL pipelines for data validation and scheduled reporting, demonstrating strong problem-solving and attention to detail in handling complex data workflows.
- Managed production reliability using **Splunk, CloudWatch, and Dynatrace** for real-time monitoring and incident response, reducing SLA violations through proactive diagnostics and **Linux** log analysis.
- Orchestrated **CI/CD pipelines** via **Jenkins** and containerized applications with **Docker**, improving deployment consistency and reducing manual errors across multiple environments.
- Executed performance optimization and debugging across **AWS** infrastructure (EC2, S3, Lambda), applying profiling techniques to identify and resolve bottlenecks in enterprise applications.
- Collaborated in Agile/Scrum teams using **Jira** and **Confluence**, prioritizing tasks effectively and communicating technical solutions to cross-functional stakeholders including operations and product teams.

## SKILLS

**Backend & Core Languages** – Java, Spring Boot, Python, SQL, REST APIs.

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

**Databases** – PostgreSQL, MySQL, Oracle.

**Monitoring & Debugging** – Splunk, Dynatrace, Linux, Shell Scripting.

**Additional Languages & Frameworks** – Flask, FastAPI, Angular, React.

**Development Practices** – Agile, Scrum, CI/CD, Code Review, Jira.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**Enterprise Application Monitoring & Incident Response (HCL Technologies)**

- Designed and deployed real-time monitoring dashboards using **Splunk and Dynatrace** to track application health across distributed Java/.NET systems, reducing mean time to resolution (MTTR) for P1/P2 incidents.
- Automated incident triage and alerting logic through **Python** scripting, enabling faster root cause analysis and minimizing production downtime.

- Performed deep-dive diagnostics using **CloudWatch logs, Linux shell commands, and database queries**, identifying and communicating critical issues to engineering teams for prompt remediation.

#### **CI/CD Pipeline & Data Engineering Automation (HCL Technologies)**

- Built and maintained **Jenkins pipelines** for automated testing, building, and deployment of **Spring Boot** microservices to **AWS** infrastructure, improving deployment frequency and reliability.
- Developed end-to-end **Python ETL scripts** using **pandas and NumPy** for data pipeline orchestration, validation, and transformation across multiple data sources, supporting analytics and reporting workflows.
- Containerized legacy applications using **Docker**, standardizing deployment processes and reducing environment-related bugs across development, staging, and production environments.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
