PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented end-to-end solutions for **Dynamics 365 Customer Service** and **Field Service** modules, translating complex business requirements into technical specifications and functional designs.
- Developed and configured **Power Apps** canvas and model-driven applications, incorporating custom logic with **Power Automate** to automate workflows across sales, customer operations, and service delivery.
- Built robust system integrations using **APIs** and web services to connect Dynamics 365 with external enterprise systems, ensuring seamless data flow and process automation.
- Managed data migration activities for a greenfield implementation, including data cleansing, transformation, and validation using SQL and Python scripting to ensure data integrity.
- Collaborated with business stakeholders and operations teams to gather requirements, define user stories, and coordinate User Acceptance Testing (UAT) for new system functionalities.
- Engineered automated reporting solutions using **Power BI** and DAX measures to provide actionable insights into sales pipeline performance and customer service metrics for senior management.
- Containerized backend services and integration components using **Docker**, deploying them onto **AWS EC2** instances for improved scalability and manageability.

SKILLS

Dynamics 365 – Customer Service, Field Service, Power Platform, Power Apps, Power Automate

Integration – APIs, REST, SOAP, System Integrations, Data Migration

Programming & Scripting – Python, SQL, Java, Spring Boot

Data & Analytics – Power BI, DAX, Power Query, Data Modelling, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Methodologies – Agile, Scrum, Change Management

PROJECTS

Dynamics 365 CRM Implementation for Renewable Energy Sector

- Designed and configured core modules for **Dynamics 365 Customer Service**, including case management, knowledge base integration, and service scheduling functionalities to streamline customer support operations.
- Developed custom workflows and automated processes using **Power Automate** to manage lead qualification, customer onboarding, and field service dispatch, reducing manual intervention by an estimated **40%**.
- Integrated the Dynamics 365 platform with an existing ERP system via **REST APIs**, enabling bidirectional data synchronization for customer accounts and order information.

Automated Billing and Pricing Solution

- Engineered a solution on the **Power Platform** to automate complex pricing calculations and generate customer invoices, reducing billing cycle time by approximately **3 days**.
- Built interactive **Power BI dashboards** to visualize billing trends, identify pricing anomalies, and track revenue performance, providing key insights to the sales and finance departments.
- Developed **Python scripts** for data validation and transformation, ensuring accuracy and consistency of pricing data across integrated systems prior to report generation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
