PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production support for enterprise applications, resolving P1/P2 incidents and ensuring adherence to SLAs using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate data extraction and transformation for scheduled reporting, processing approximately **15 GB** of data daily.
- Engineered Java Spring Boot REST APIs to facilitate cross-service communication, handling over **2,000 requests** per minute during peak hours.
- Supported the integration of PLC, SCADA, and MES systems with enterprise platforms, ensuring seamless data flow across operational technology and IT environments.
- Reviewed and approved automation lifecycle documentation, including URS, FDS, and FAT reports, for capital projects within a **GxP framework**.
- Troubleshot automation and network integration issues during commissioning and startup phases, contributing to the successful deployment of compliant systems.
- Containerized Java applications using **Docker** and deployed to **AWS EC2** instances, managing CI/CD pipelines with **Jenkins** for automated builds and deployments.

SKILLS

Automation & Control Systems – PLC, SCADA, DCS, MES, OT Networks, ISA-88, ISA-95, System Integration, Commissioning, Qualification, Startup

Programming & Scripting – Java, Spring Boot, Python, SQL, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Data & Analytics – Power BI, Tableau, DAX, Power Query, Pandas, NumPy, R

Enterprise Systems – ERP, Change Management, UAT, Production Support, Incident Response

Methodologies – Agile, Scrum, GxP, CQV, Computer System Validation

PROJECTS

Pharma Manufacturing Automation System Integration

- Integrated PLC and SCADA systems with a manufacturing execution system (MES) for a major pharmaceutical client, enabling real-time production monitoring.
- Developed Python scripts to automate data collection from utility systems and populate historian databases, reducing manual data entry by **40%**.
- Participated in FAT and SAT activities for automation vendors, ensuring systems met design specifications and compliance requirements.

Enterprise Systems Automation Framework

- Designed and implemented a Python-based framework to automate routine system checks and reporting for enterprise applications, covering over **100 key metrics**.
- Developed Java Spring Boot microservices to act as middleware between an ERP system and a new operational dashboard, improving data synchronization speed by **30%**.
- Managed change control processes for system configuration updates, coordinating UAT and post-go-live support across interconnected business systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
