# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Reviewed and audited aircraft performance charts for **35+ destinations** and alternates, ensuring compliance with operational parameters.
- Managed the monthly audit of **flight files and associated documents**, maintaining meticulous records for operational review.
- Monitored **NOTAMs for changes** impacting runway declared distances and obstacle clearance, coordinating updates with flight planning.
- Assisted with weight and balance calculations for **various aircraft types**, supporting accurate flight dispatch.
- Configured and tracked company-issued **Apple iPads and iOS devices** used for electronic flight bags, managing hardware and software updates.
- Provided **application support and training** to flight operations management and end-users on aircraft performance and EFB systems.
- Collaborated with the Flight Support Specialist to manage device stock and ensure operational readiness of EFB hardware and software configurations.

## SKILLS

**Aviation Operations** – Aircraft Performance, Weight & Balance, Flight Planning, NOTAMs, Flight Files, EFB Administration

**Software & Systems** – GURU 2, Orlando (Aircraft Performance Manuals), Microsoft Suite, Apple iPad, iOS

**Support & Administration** – End-User Support, Training Provision, Device Tracking, Stock Management, Auditing, Change Management

**Core Skills** – Analytical Skills, Organizational Skills, Interpersonal Skills, Attention to Detail, Problem-Solving

**General IT** – Linux, Shell Scripting, Git, Jenkins, Jira, Confluence

## PROJECTS

**Aircraft Performance System Enhancement (HCL Technologies)**

- Developed Python scripts to automate the processing of aircraft performance data for **over 50 airports**, reducing manual data entry time by **~40%**.
- Integrated performance data with an internal dashboard to provide flight planners with real-time access to critical operational parameters.
- Authored detailed documentation and runbooks for the updated performance data ingestion process, facilitating knowledge transfer to operations teams.

**EFB Device Management and Training Portal (MSc Applied Project)**

- Designed and implemented a **web-based portal** using Flask and PostgreSQL to track the deployment status and software versions of **150+ EFB devices**.
- Created interactive training modules on iPad EFB usage and core flight operations applications, delivered to a pilot group of **10 users**.
- Gathered user feedback on the EFB interface and application performance, translating insights into actionable recommendations for system improvements.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
