HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **CI/CD pipelines** using **Jenkins** for Java Spring Boot applications, reducing deployment lead time by **40%**.
- Deployed and managed containerized applications on **OpenShift/Kubernetes** clusters, orchestrating deployments with **Helm** charts for enterprise services.
- Developed **Python scripts** for automating repetitive tasks in production environments, including log analysis and system health checks, improving operational efficiency by **15%**.
- Collaborated with development teams to integrate automated testing and improve **release processes** for Spring Cloud microservices, ensuring smoother deployments.
- Troubleshot and resolved issues across **CI/CD pipelines**, **Docker containers**, and **Spring Cloud microservices**, maintaining high application availability.
- Enhanced application **monitoring and logging** capabilities using tools like **Splunk** and **Dynatrace**, enabling faster root cause analysis and incident response.
- Maintained clear and concise technical **documentation** for deployment procedures and troubleshooting guides, supporting knowledge transfer for new team members.

SKILLS

DevOps Tools – Jenkins, Docker, Helm, OpenShift, Kubernetes, Ansible, Terraform, Splunk, Dynatrace

Languages – Java, Spring Boot, Spring Cloud, Python, Bash, SQL

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Operating Systems – Linux

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Automated Deployment Pipeline for Java Microservices

- Engineered a **CI/CD pipeline** using **Jenkins** to automate the build, test, and deployment of **Java Spring Boot** microservices to **Kubernetes**.
- Integrated **Docker** for containerization and **Helm** for templating Kubernetes manifests, ensuring consistent environments across development and production.
- Implemented automated rollback strategies within the pipeline, reducing deployment failure recovery time by an average of **3 hours**.

Production Monitoring and Alerting System Enhancement

- Developed **Python scripts** to parse logs from **Splunk** and ingest metrics into **Dynatrace** for enhanced application performance monitoring.
- Configured custom alerts within the monitoring stack for critical application events, reducing P1 incident detection time by **20%**.
- Created operational dashboards in **Dynatrace** to visualize key performance indicators and system health for a suite of enterprise applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
