HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assisted in monitoring **AWS cloud infrastructure** (EC2, S3, CloudWatch) and maintaining operational health using **Splunk** for log analysis and alerting.
- Supported cloud deployment and configuration activities by managing **Jenkins pipelines** for automated builds and deployments to **AWS environments**.
- Troubleshot cloud-related issues by analyzing logs and system performance metrics, contributing to the resolution of P1/P2 incidents within defined SLAs.
- Managed and monitored **enterprise cloud infrastructure**, including performing routine checks and responding to alerts generated by **Dynatrace**.
- Executed **Python scripts** to automate data extraction and transformation tasks for operational reporting and scheduled data pipeline jobs.
- Collaborated with cross-functional teams to support infrastructure monitoring, security best practices, and comprehensive documentation of cloud environments.
- Participated in the management and maintenance of cloud infrastructure, including assisting with configuration updates and system patching on **Linux servers**.

SKILLS

Cloud Platforms – AWS, EC2, S3, Lambda, CloudWatch

Operating Systems – Linux, Shell Scripting

Programming & Scripting – Python, Java, Spring Boot, SQL

DevOps & CI/CD – Jenkins, Git, Docker

Monitoring & Logging – Splunk, Dynatrace

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Cloud Infrastructure Monitoring and Automation

- Developed Python scripts to automate the collection and aggregation of performance metrics from various **AWS services**, reducing manual data gathering time by 40%.
- Configured **Splunk** dashboards and alerts to monitor the health of critical applications deployed on **EC2 instances**, enabling proactive identification of potential issues.
- Containerized a data processing utility using **Docker** for consistent deployment across development and staging environments, streamlining the release cycle.

Automated Cloud Deployment Pipeline

- Engineered a **CI/CD pipeline** using **Jenkins** to automate the build, test, and deployment of Java Spring Boot applications to **AWS Lambda**.
- Integrated automated security scanning tools into the pipeline, identifying and flagging **vulnerabilities** in code dependencies before deployment.
- Documented the deployment process and rollback procedures, creating a runbook that reduced incident resolution time for deployment failures by approximately 20%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
