PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Served as the primary IT point of contact for Dublin-based colleagues, diagnosing and resolving an average of **15 business systems issues** per week through **Jira** ticketing.
- Supported and enhanced enterprise applications by investigating user queries and system functionality, contributing to **process improvement** initiatives that reduced manual workarounds by an estimated **18%**.
- Collaborated with business users to gather requirements for application enhancements and system integrations, translating needs into actionable technical specifications for development teams.
- Coordinated with the wider IT team and external service providers to troubleshoot and resolve complex software issues, ensuring timely resolution within defined SLAs.
- Assisted in the execution of system testing and user acceptance testing (UAT) for new features and upgrades, documenting defects and verifying fixes using **Confluence**.
- Contributed to technology projects focused on enterprise applications, system integrations, and data management by providing technical analysis and support.
- Developed and maintained **systems documentation**, support procedures, and operational records, improving knowledge sharing across the IT team.

SKILLS

Business Applications – Enterprise Applications, Business Systems, System Administration, Workflow Automation, Process Improvement

Microsoft 365 – Microsoft 365 Applications, Collaboration Tools

System Support – Troubleshooting, Problem-Solving, Issue Investigation, User Support, System Testing, UAT

Project Management – Technology Initiatives, Coordination, Requirements Gathering

Data & Automation – Data Management, Automation Projects

Tools – Jira, Confluence, Power BI, Power Automate

PROJECTS

Enterprise Application Support & Enhancement

- Provided production support for core enterprise applications at HCL Technologies, resolving **P1/P2 incidents** and managing SLAs for critical business systems.
- Developed **Python scripts** to automate data validation and reporting tasks for internal operational dashboards, reducing manual effort by approximately **10 hours per week**.
- Worked with business analysts to define requirements for new features and troubleshoot issues within a **Java Spring Boot**-based application used for transaction monitoring.

Business Systems Integration & Documentation

- Supported integrations between enterprise systems using **REST APIs** and direct database connections (**PostgreSQL**, Oracle), ensuring data consistency.
- Contributed to a **change-control management** process for system configuration updates, coordinating UAT and post-go-live support activities.
- Created and updated technical documentation and user guides for enterprise business systems, enhancing onboarding for new team members.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
