PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first-line technical support for a 300+ user enterprise environment, resolving an average of 15 hardware and software issues daily via ticketing system.
- Managed and prioritized incoming Service Desk tickets, ensuring timely resolution of incidents and requests by maintaining a 90% SLA adherence for P1 issues.
- Installed, configured, and troubleshot a fleet of 250+ Windows 10/11 desktops, laptops, and peripherals, including onboarding new hires by provisioning equipment.
- Supported users remotely using **TeamViewer** and internal remote-support tools, addressing software application errors and connectivity problems.
- Administered user accounts and access permissions within **Active Directory** and **Microsoft Entra ID**, processing over 50 requests weekly for account creation, modification, and deletion.
- Documented IT incidents, requests, and resolutions in a shared **Confluence** knowledge base, contributing 10+ new articles per month to improve self-service resolution rates.
- Assisted in managing IT assets, tracking equipment deployment and hardware lifecycle using an IT asset management system, ensuring accurate inventory records.

SKILLS

Operating Systems – Windows 10, Windows 11, Linux

Microsoft 365 – Teams, SharePoint, OneDrive, Outlook

Directory Services – Active Directory, Microsoft Entra ID

Endpoint Management – Microsoft Intune, Group Policy

Support Tools – Jira Service Management, Confluence, TeamViewer, CloudWatch, Splunk, Dynatrace

Networking & Security – VPN, MFA, Cybersecurity best practices

Hardware & Peripherals – Desktop, Laptop, Printer, AV equipment

PROJECTS

IT Support Automation for Enterprise Client

- Developed Python scripts to automate routine IT support tasks, including user account creation and software deployment, reducing manual effort by an estimated 20%.
- Authored technical guides and standard operating procedures (SOPs) for common IT issues and system configurations, facilitating faster resolution for the Service Desk team.
- Implemented basic monitoring for critical Group IT systems using **Splunk** and **CloudWatch**, enabling proactive identification of potential issues before they impacted end-users.

Onboarding Process Enhancement for New Hires

- Streamlined the IT onboarding process for new employees by creating a comprehensive checklist and automating the setup of standard software packages, reducing setup time by 30%.
- Configured and deployed user profiles and access rights in **Microsoft Entra ID** and **Active Directory** for over 50 new hires, ensuring compliance with security policies.
- Provided direct, hands-on support to new team members during their initial week, addressing setup challenges and providing introductions to key IT resources.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
