HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the full lifecycle of incidents for critical business applications and ERP systems, including P1/P2 escalations and SLA adherence, by analysing logs in **Splunk** and **Dynatrace**.
- Developed **Python** scripts to automate ETL processes for financial reporting, reducing manual data compilation effort by approximately **15 hours** per week.
- Executed complex SQL queries across **PostgreSQL** and **Oracle** databases for data validation, root cause analysis of application issues, and schema change verification.
- Supported and integrated with enterprise business systems, including ERP modules and operational platforms, coordinating change management and UAT for system configuration updates.
- Troubleshot API and data flow problems across multiple interconnected systems, working with third-party vendors and internal technical teams to deliver resolutions.
- Contributed to **Java Spring Boot** feature development and bug fixes for enterprise applications, including the design and implementation of new REST APIs.
- Containerized Java applications using **Docker** for consistent deployment across development and production environments, integrated with **Jenkins** CI/CD pipelines.

SKILLS

Application Support – Incident Management, Problem Management, Change Management, Service Request Management, Root Cause Analysis, ITIL Processes, Access Management, Application Security

ERP Systems – ERP Support, Infor M3, Infor CloudSuite, Systems Analysis

Databases & SQL – SQL, PostgreSQL, MySQL, Oracle, Database Querying, Data Validation, Data Flows

Programming & Scripting – Java, Spring Boot, Python, REST APIs, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Monitoring & Observability – Splunk, Dynatrace

Integration Technologies – Web Services, API Testing, Postman

PROJECTS

ERP System Integration Support (HCL Technologies)

- Supported a key banking client's ERP system integration, facilitating cross-system data flows between operational platforms and core banking applications using **SQL** and **REST APIs**.
- Managed change control processes for ERP system configuration updates, coordinating User Acceptance Testing (UAT) and providing post-go-live support across interconnected systems.
- Developed **Python** scripts to automate data reconciliation checks between the ERP system and a downstream financial reporting tool, improving data accuracy.

Financial Operations Dashboard Enhancements (HCL Technologies)

- Enhanced a payments operations dashboard used by a financial-services client, focusing on transaction monitoring and operational alerting for failed payment messages.
- Implemented improvements to data querying and validation logic using **SQL** within the dashboard's backend to identify root causes for ~5% of transaction processing errors.
- Collaborated with business analysts to gather requirements for new alerting features, ensuring awareness of regulatory compliance and GDPR standards in the production environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
