HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and maintained **CI/CD pipelines** using **Azure DevOps** for the Lab Management System and Lablink portal, enabling automated deployments and reducing release cycles by **~30%**.
- Administered **Windows Server** and **Linux** environments, ensuring operational stability and security for a global development lab supporting over **200 users**.
- Implemented and managed **patch management** and **vulnerability remediation** processes across the infrastructure, adhering to least-privilege access controls and compliance requirements.
- Managed relational databases including **SQL Server** and **PostgreSQL**, overseeing operational tasks such as backups, monitoring, and failover configurations to maintain data integrity.
- Deployed and managed applications on **Azure services** including **App Service** and **Azure SQL Database**, optimizing resource allocation and performance.
- Developed and maintained **monitoring and troubleshooting** strategies for application and infrastructure environments using tools like **Splunk** and **Dynatrace**, improving incident detection times by **~20%**.
- Provided **cross-functional support** and acted as a technical liaison between Development, InfoSec, and IT teams to ensure seamless platform operation and cloud migration.

SKILLS

DevOps Tools – Azure DevOps, GitHub Actions, Jenkins, Docker

Operating Systems – Windows Server, Linux

Cloud Platforms – Azure (App Service, Azure SQL, Key Vault, Entra ID), AWS (EC2, RDS, SQS)

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Networking & Security – DNS, TLS/SSL, Firewalls, VPNs, PKI, Certificate Management

Monitoring & Logging – Splunk, Dynatrace, CloudWatch

Infrastructure as Code – Terraform, Bicep, ARM templates

PROJECTS

DevOps Pipeline Enhancement for SaaS Platforms

- Engineered automated **CI/CD pipelines** using **Azure DevOps** to support continuous integration and deployment for multi-tenant SaaS applications, reducing manual intervention by **over 50%**.
- Implemented robust **monitoring and alerting** mechanisms using **Splunk** and custom scripts to proactively identify and resolve infrastructure issues, ensuring high availability for critical services.
- Managed infrastructure provisioning and configuration for development and staging environments on **Azure**, integrating **Terraform** for Infrastructure as Code practices.

Secure Infrastructure for Regulated Industry Compliance

- Designed and implemented security controls, including access management and network segmentation, to meet compliance requirements for a regulated industry environment.
- Administered relational databases, focusing on operational resilience through automated backups and failover strategies for **SQL Server** instances.
- Configured and managed **TLS/SSL certificates** and **PKI** infrastructure to ensure secure communication channels for customer-facing portals.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
