PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained interactive **Power BI dashboards** and reports for business stakeholders, translating raw data into actionable insights and identifying key performance trends.
- Wrote complex **SQL queries**, including advanced Joins, CTEs, and Window Functions, to extract, transform, and analyze large datasets from relational databases for reporting and analytical purposes.
- Created and maintained **Key Performance Indicators (KPIs)** and performance metrics, ensuring data accuracy and consistency for management and business teams.
- Performed rigorous **data cleaning, validation, and quality checks** to ensure the integrity and reliability of data used in analysis and reporting.
- Automated recurring **reporting processes** using SQL and Power Query, significantly improving reporting efficiency and reducing manual effort for the analytics team.
- Collaborated with business stakeholders and management to gather requirements, understand analytical needs, and present complex data findings in a clear and concise manner.
- Applied **Python with Pandas and NumPy** for data manipulation and analysis tasks, supporting the development of data pipelines and ad-hoc analytical requests.

SKILLS

BI Tools – Power BI, Tableau, DAX, Power Query, Data Modeling

Databases & SQL – SQL Server, MySQL, Oracle, PostgreSQL, Joins, CTEs, Subqueries, Window Functions

Data Analysis & ETL – ETL Processes, Data Warehousing, Data Cleaning, Data Validation, KPIs, Metrics, Performance Reports

Programming & Scripting – Python, Pandas, NumPy, R, RStudio

Reporting & Visualization – Interactive Dashboards, Report Development, Business Intelligence

PROJECTS

Interactive Business Intelligence Dashboards

- Designed and developed a suite of **interactive dashboards in Power BI** to visualize key business metrics and operational performance for multiple departments.
- Implemented complex **DAX measures** and Power Query transformations to aggregate and analyze data from disparate sources, ensuring data accuracy and performance.
- Published and shared reports with **business stakeholders**, facilitating data-driven decision-making and providing insights into sales performance and customer trends.

Automated Reporting and Data Validation Framework

- Built an automated data pipeline using **SQL and Python (Pandas)** to extract, clean, and transform data from enterprise systems for daily reporting.
- Developed **SQL validation scripts** to perform data quality checks, identifying and flagging inconsistencies before data was loaded into reporting databases.
- Created scheduled reports that provided timely updates on operational metrics, reducing manual reporting time by approximately **40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
