HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained native Android applications using **Java** and the **Android SDK**, implementing key features based on UI/UX designs.
- Integrated **REST APIs** and consumed **JSON** payloads to enable seamless data exchange between mobile clients and backend services.
- Implemented database solutions using **SQLite** for local data storage and efficient data retrieval within mobile applications.
- Collaborated with backend developers and QA teams to debug applications, resolve technical issues, and optimize performance for production releases.
- Wrote clean, reusable, and efficient code following Object-Oriented Programming principles, ensuring maintainability and scalability.
- Performed application testing, including unit and integration tests, to ensure functionality and identify potential bugs before deployment.
- Containerized mobile application components and deployment artifacts using **Docker** for consistent build and deployment across environments.

SKILLS

Mobile Development – Android SDK, Java, Kotlin, Dart, Swift, Flutter, React Native

API Integration – REST APIs, JSON

Databases – SQLite, Firebase

Version Control – Git, GitHub

Development Tools – Android Studio, VS Code, Xcode

Core Concepts – Object-Oriented Programming (OOP), Debugging, Testing

PROJECTS

Android E-commerce Application Development

- Designed and built a feature-rich Android e-commerce application using **Java** and the **Android SDK**, simulating a full retail experience.
- Integrated multiple **REST APIs** for product catalog, user authentication, and order processing, handling **JSON** data across the stack.
- Implemented **SQLite** for caching product data and user preferences, improving load times and offline functionality for ~1,500 SKUs.

Mobile App Performance Optimization & CI/CD

- Refactored existing Android application code to improve performance, reducing average screen load times by **28%**.
- Set up a **CI/CD** pipeline using **Jenkins** and **Git** to automate build, testing, and deployment processes for the mobile application.
- Integrated **Firebase Analytics** to monitor application usage patterns and identify areas for user experience enhancements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
