PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained enterprise-grade business applications using **Power Apps**, **Power Automate**, and **Dataverse**, aligning with complex business requirements and adhering to governance standards.
- Designed and implemented integrations between **Microsoft Power Platform** solutions and various enterprise systems, including **Azure services** and external **APIs**, ensuring seamless data flow.
- Configured and developed **custom connectors** and **plugins** to extend Power Platform capabilities, enhancing functionality and enabling sophisticated workflows.
- Collaborated with business stakeholders to gather requirements, define solution scope, and deliver high-quality, user-centric applications within a modern Microsoft technology ecosystem.
- Contributed to the design of scalable and maintainable technical solutions, participating in **solution architecture** discussions and advocating for platform best practices.
- Supported the deployment of **Power Platform** solutions through **Azure DevOps pipelines**, managing release processes and ensuring adherence to established change management procedures.
- Enhanced productivity and code quality by leveraging **AI-assisted development tools** such as GitHub Copilot during development cycles.

SKILLS

Power Platform – Power Apps, Power Automate, Dataverse, Power Platform ecosystem, Power Platform ALM, Custom Connectors, Power Platform Plugins, Canvas Apps, Power FX

Microsoft Azure – Azure services, Azure DevOps

Microsoft 365 – Microsoft 365

Development – APIs, system integrations, JavaScript, TypeScript, C#, SQL Server, Database design, T-SQL, Stored Procedures

Cloud – Cloud technologies

BI & Analytics – Power BI

Version Control & CI/CD – Git, release management processes

PROJECTS

Enterprise Workflow Automation with Power Platform

- Designed and implemented an automated workflow for internal expense approvals using **Power Automate** and **Dataverse**, reducing processing time by an average of **40%** for the finance operations team.
- Developed a custom **Power App** interface for submitting and tracking expense claims, integrating with the existing financial systems via **APIs** and custom connectors.
- Configured security roles and data access policies within **Dataverse** to ensure compliance with enterprise data governance standards.

Data Visualization and Reporting Dashboard

- Developed an interactive **Power BI** dashboard to visualize key performance indicators for customer support operations, consolidating data from multiple sources.
- Created complex **DAX measures** and optimized data models in **Power Query** to provide actionable insights into ticket resolution times and customer satisfaction trends.
- Published and managed access to the **Power BI** report for business stakeholders, facilitating data-driven decision-making across the support department.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
