HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **CI/CD pipeline components** and **Kubernetes manifests** for core platform services, enabling faster deployment cycles for product teams.
- Supported **observability tooling** by instrumenting logs and metrics for platform services, contributing to a **15% reduction** in critical alert noise.
- Wrote **infrastructure-as-code modules** using Terraform for provisioning cloud resources, adhering to established patterns and incorporating feedback from senior engineers.
- Collaborated with **enterprise engineering teams** to understand their needs and integrate new platform capabilities, improving their deployment efficiency by an estimated **20%**.
- Participated in **incident postmortems** for platform services, documenting root causes and contributing to the refinement of reliability practices.
- Gained practical experience with **AI-assisted engineering tools**, accelerating personal learning and identifying opportunities for their application to platform users.
- Managed **Linux server configurations** and executed shell scripts for routine maintenance and log analysis on cloud infrastructure.

SKILLS

Platform Engineering – Kubernetes, OpenShift, Terraform, CI/CD, ArgoCD, GitHub Actions, Jenkins, IaC, Observability, Prometheus, Grafana, Datadog, Service Mesh, Networking

Cloud Platforms – Azure, AWS, Openshift

Programming & Scripting – Python, Shell Scripting, Linux

Containerization – Docker

AI/ML Infrastructure – Gen AI, Vector Database, AI Coding Assistants

Development Practices – Agile, Scrum, Code Review, Incident Response

PROJECTS

Platform Infrastructure Automation Suite

- Developed **Terraform modules** to automate the provisioning of Kubernetes clusters and associated cloud resources across multiple environments, reducing manual setup time by **~60%**.
- Integrated **ArgoCD** for declarative continuous deployment of platform services, ensuring consistent application of configurations and enabling automated rollbacks.
- Wrote comprehensive documentation and provided knowledge-sharing sessions for platform team members on the use of the new IaC tooling.

Enhanced Service Observability Initiative

- Implemented structured logging and custom metrics for a suite of backend services using **Prometheus client libraries**, enhancing system visibility.
- Designed and built interactive **Grafana dashboards** to visualize key performance indicators and operational health, aiding in proactive issue detection for **8 critical services**.
- Collaborated with development teams to integrate their services into the central observability platform, ensuring adherence to new instrumentation standards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
