PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and grew a planning consents service, overseeing a team of **8 planners** and supporting the leadership in business development strategy and client relationship nurturing.
- Led major development applications for **large infrastructure projects** across the Republic of Ireland, providing strategic planning advice to both clients and internal multi-disciplinary teams.
- Ensured successful project delivery within budget and programme timelines, coordinating **cross-functional teams** including engineers, environmental specialists, and transport planners.
- Implemented and upheld **quality assurance** and health and safety principles across all project deliverables, ensuring compliance with Irish planning consent regulations.
- Contributed to the business development strategy by preparing commercial tenders and fostering client relationships with key entities such as **EirGrid and Transport Infrastructure Ireland**.
- Mentored and developed a team of planners, fostering a collaborative environment focused on delivering high-quality work and driving business growth in the planning consents service.
- Managed the deployment and configuration of **AWS EC2** instances for project data storage and collaboration tools, ensuring secure access and operational continuity.
