HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated multidisciplinary environmental inputs for infrastructure development projects, ensuring alignment with client requirements and regulatory frameworks.
- Collaborated with design teams and stakeholders to identify environmental constraints, develop mitigation strategies, and deliver sustainable project solutions.
- Prepared and reviewed environmental assessment reports, incorporating technical findings and stakeholder feedback to support development consent applications.
- Managed post-planning consent support for projects, addressing environmental considerations during construction and operational phases.
- Developed Python scripts to automate data collection and analysis for environmental impact studies, reducing manual processing time by approximately 30%.
- Designed and implemented data validation checks using **SQL** across **PostgreSQL** and **Oracle** databases to ensure data integrity for environmental reporting.
- Containerized assessment workflow tools using **Docker** and managed deployments on **AWS EC2** instances, improving environment consistency and portability.

SKILLS

Environmental Assessment – Environmental Impact Assessment, Environmental Planning, Environmental Management, Sustainability, Climate Change, Biodiversity

Data Analysis & Visualization – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy

Programming & Scripting – Python, Java, Spring Boot, SQL, Shell Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Project Management & Tools – Jira, Confluence, Agile, Scrum

PROJECTS

Environmental Data Integration Platform

- Developed Python scripts to ingest and process diverse environmental datasets from various sources, including sensor logs and public records, for impact analysis.
- Designed and implemented a relational data model in **PostgreSQL** to store and query environmental impact data, supporting complex analytical queries.
- Created automated reporting workflows using **Python** and scheduled jobs, delivering weekly summaries of key environmental metrics to project managers.

Stakeholder Engagement Dashboard for Infrastructure Projects

- Built an interactive **Power BI** dashboard to visualize stakeholder feedback, project timelines, and environmental mitigation progress for infrastructure projects.
- Integrated data from multiple sources using **Power Query**, including survey responses and project documentation, to provide a unified view for stakeholders.
- Applied **DAX** measures to calculate key performance indicators for stakeholder engagement and environmental compliance, enabling data-informed decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
