HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented Java Spring Boot microservices for a financial services client, focusing on robust API development and data persistence layers.
- Developed and maintained Java EE applications, applying object-oriented design principles and ensuring comprehensive unit test coverage with JUnit.
- Engineered data pipelines using Python and SQL to automate ETL processes and generate scheduled reports for enterprise business systems, reducing manual effort by approximately **40%**.
- Managed production support for enterprise applications, including incident response for P1/P2 issues and SLA adherence, utilizing **Splunk** and **Dynatrace** for monitoring and diagnostics.
- Contributed to CI/CD pipeline development and maintenance using **Jenkins** and Git, enabling more frequent and reliable application deployments.
- Collaborated with cross-functional teams and business analysts to gather requirements, support UAT, and perform post-implementation triage for system integrations.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, ensuring consistent environments across development and production.

SKILLS

Languages – Java, Python, SQL, R

Frameworks – Spring Boot, Java EE, Spring

Cloud – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Enterprise System Integration Automation (HCL Technologies)

- Automated cross-system data flows between ERP modules and operational platforms using Python scripting and SQL queries across PostgreSQL and Oracle databases.
- Developed REST APIs in Java Spring Boot to facilitate seamless communication and data exchange between interconnected enterprise applications.
- Managed change-control processes for system configuration updates and coordinated UAT cycles, ensuring smooth post-go-live support for business-critical systems.

Financial Operations Data Dashboard (HCL Technologies)

- Built and maintained a payments operations dashboard for a financial services client, focusing on transaction flow monitoring and alerting for failed payment messages.
- Implemented data validation and reconciliation workflows within the dashboard, enhancing operational visibility and reducing manual error detection time by an estimated **30%**.
- Collaborated with operations teams to refine alerting mechanisms and reporting features, directly impacting the team's ability to resolve critical incidents within defined SLAs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
