HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and analyzed **transportation data** from diverse sources, identifying key trends and patterns to inform strategic planning initiatives.
- Contributed to the development of **transport strategies and plans** by researching best practices and compiling relevant information for senior planners.
- Assisted in the preparation of **transport assessments for developments**, ensuring compliance with regulatory requirements and client specifications.
- Prepared technical input for **reports, presentations, and proposals**, translating complex data into clear and concise documentation for stakeholders.
- Participated in **meetings and workshops** with clients and internal teams, actively contributing to discussions on project objectives and technical challenges.
- Developed and applied **transport models** using industry-standard software, supporting scheme appraisal and feasibility studies.
- Managed production environments for enterprise applications, ensuring adherence to strict SLAs and performing **incident response** for P1/P2 issues, with a focus on root cause analysis using **Splunk** and **Dynatrace**.

SKILLS

Transport Planning – Transport Strategy Development, Transport Modelling and Appraisal, Feasibility Studies, Business Case Development, Development Planning, Monitoring and Evaluation

Data Analysis – Data Collection, Data Analysis, Statistical Analysis, Exploratory Data Analysis, Hypothesis Testing

Software & Tools – Microsoft Office Suite (Word, Excel, PowerPoint), Jira, Confluence, Git, Jenkins

Programming & Scripting – Python, Java, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Urban Mobility Data Analysis Platform (HCL Technologies)

- Developed Python scripts to ingest and clean diverse urban mobility datasets, including traffic flow, public transit usage, and demographic information.
- Built analytical models using pandas and scikit-learn to identify correlations between transport infrastructure changes and commuter behavior, presenting findings through detailed reports.
- Designed and implemented a PostgreSQL schema for efficient storage and querying of temporal transport data, supporting ad-hoc analysis for urban planning scenarios.

Development Planning Support Tool (HCL Technologies)

- Created a Java Spring Boot application to assist in the preparation of transport assessments for new developments, automating data compilation and initial compliance checks.
- Integrated the application with PostgreSQL to access and process relevant planning regulations and historical development data, reducing manual data entry by an estimated 40%.
- Developed RESTful APIs for data exchange with existing enterprise systems, streamlining information flow for development planning teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
