# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed **Java Spring Boot** REST APIs for cross-service data exchange, incorporating request validation and circuit-breaker patterns to enhance system resilience.
- Designed and implemented a **JPA persistence layer** with Hibernate for a backend service, managing complex relational data models and ensuring data integrity across **PostgreSQL** databases.
- Wrote **JUnit and Mockito tests** for Java components, achieving over **85% code coverage** for critical business logic modules and improving overall code quality.
- Coordinated with cross-functional teams including operations and business analysts to gather requirements for system enhancements and provide post-implementation triage support.
- Managed change-control processes for enterprise system configurations, coordinating User Acceptance Testing and providing post-go-live support for interconnected platforms.
- Constructed **Python scripts** to automate data extraction and transformation tasks, streamlining ETL processes and reducing manual data handling effort by approximately **40%**.
- Containerised backend services using **Docker** and deployed them to **AWS EC2** instances, establishing basic CI/CD pipelines with **Jenkins** for automated builds and deployments.

## SKILLS

**Languages** – Java, Python, SQL, R, JavaScript

**Frameworks & Libraries** – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

**Databases** – PostgreSQL, MySQL, Oracle

**Data Analysis & BI** – Power BI, Tableau, DAX, Power Query, RStudio, Statistical Analysis, Data Warehousing

**Methodologies** – Agile, Scrum

**Tools** – Jira, Confluence, Splunk, Dynatrace

## PROJECTS

### Enterprise System Integration Platform (HCL Technologies)

- Developed a **Java Spring Boot** microservice to integrate disparate enterprise systems, handling data flows via REST APIs and ensuring seamless communication with **PostgreSQL**.
- Implemented asynchronous processing for high-volume data transfers using a message queue pattern, improving system throughput by an estimated **30%** during peak loads.
- Authored comprehensive technical documentation and runbooks for the integration platform, facilitating smoother operational handovers and knowledge transfer.

### Automated Reporting and Data Pipeline (HCL Technologies)

- Engineered a **Python**-based data pipeline to ingest, transform, and load data from multiple sources into a data warehouse, supporting scheduled reporting requirements.
- Designed and built **Power BI** dashboards to visualise key operational metrics and trends derived from the processed data, providing actionable insights to business stakeholders.
- Applied **SQL** for complex data validation and aggregation tasks, ensuring data accuracy and consistency within the reporting framework.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
