PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed customer escalations from Tier 1 support, resolving complex technical issues via phone, email, and chat within defined SLAs.
- Documented technical troubleshooting steps and resolutions in a clear, structured format for knowledge base contribution and team reference.
- Identified recurring customer issues by analyzing ticket data and proposed process improvements to the support lead, contributing to a **15% reduction** in repeat issues.
- Collaborated with cross-functional engineering and operations teams to diagnose and resolve intricate system-level problems affecting satellite connectivity.
- Developed **Python scripts** to automate data extraction and reporting for operational metrics, reducing manual effort by approximately **8 hours per week**.
- Contributed to the development of internal tooling on **AWS Lambda** and **Python** for enhanced log analysis and alert correlation.
- Participated in **Agile ceremonies**, including sprint planning and retrospectives, to refine support processes and improve team efficiency.

SKILLS

Customer Support – Technical Support, Escalation Management, Troubleshooting, Customer Service, Communication, Problem Solving

Cloud Technologies – AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Python, Java, SQL

Scripting & Automation – Python Scripting, Shell Scripting

Databases – PostgreSQL, MySQL, Oracle

Development Tools – Git, Jenkins, Jira, Confluence, Docker

Operating Systems – Linux, Windows

PROJECTS

Automated Production Monitoring System

- Developed a **Python-based** system integrated with **AWS CloudWatch** and **Splunk** to proactively monitor enterprise application health.
- Implemented automated alerting mechanisms that reduced critical incident detection time by an average of **30 minutes**.
- Generated scheduled reports on system performance and error trends, aiding operational teams in identifying potential bottlenecks.

Customer Onboarding Tooling Development

- Built a **Python CLI tool** to assist enterprise customers in configuring their initial service parameters for a new connectivity platform.
- Integrated the tool with a mock REST API simulating customer account management to validate configuration data before deployment.
- Authored comprehensive user guides and provided remote assistance to 3 pilot customer teams during their onboarding phase.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
