PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed customer escalations from Tier 1 support via phone, email, and chat, resolving intricate technical issues for a global satellite broadband initiative.
- Documented technical resolutions and troubleshooting steps in a clear, concise format for knowledge base articles and team reference, improving internal knowledge sharing by **15%**.
- Identified recurring trends in customer support inquiries related to satellite connectivity and device configuration, proposing process improvements that reduced average resolution time by **8%**.
- Collaborated with Tier 1 support and network operations teams to diagnose and resolve complex customer-reported problems, ensuring seamless service delivery.
- Provided clear and professional technical support, explaining complex internet technologies and troubleshooting steps to end-users with varying technical expertise.
- Contributed to the creation and refinement of team documentation and knowledge base articles, focusing on new product features and support procedures for the satellite constellation.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, managing configuration and basic resource allocation for improved application stability.

SKILLS

Customer Support – Technical Support, Customer Escalations, Issue Resolution, Customer Service, Troubleshooting, Communication, Problem-Solving

Technical Skills – Internet Technologies, Satellite Systems, Network Connectivity, Linux, Shell Scripting, AWS (EC2, CloudWatch)

Software & Tools – Jira, Confluence, Microsoft Office Suite (Excel, Word, SharePoint, PowerPoint), Splunk, Dynatrace

Programming & Scripting – Python, Java, SQL

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS, Docker, Jenkins, Git

Languages – German (Fluent), English (Fluent)

PROJECTS

Customer Support Automation for Enterprise Services

- Developed **Python** scripts to automate the initial triage and data collection for common customer support tickets, reducing manual effort by **30%**.
- Built a **Flask**-based API to integrate with the internal ticketing system, enabling automated ticket routing based on issue type and customer tier.
- Created comprehensive runbooks and troubleshooting guides for common enterprise system issues, enhancing the efficiency of Tier 2 support staff.

AWS Cloud Infrastructure Monitoring & Alerting

- Configured **AWS CloudWatch** alarms and dashboards to monitor key performance indicators for production services, proactively identifying potential issues.
- Wrote **shell scripts** to automate log analysis and health checks on **Linux** servers, providing early warnings for system anomalies.
- Documented incident response procedures and escalation paths for critical system alerts, contributing to a more structured on-call rotation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
