HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and enhanced the operational health of a diverse set of **AWS services** including **EC2**, **S3**, and **Lambda**, ensuring high availability for EU customers.
- Developed and deployed **Python scripts** to automate routine operational tasks and data processing, reducing manual intervention by approximately **20%**.
- Executed planned changes to production systems following a strict **change management process**, coordinating with global AWS teams to minimize service disruption.
- Participated in on-call rotations, responding to and resolving critical incidents impacting service availability, performing root cause analysis to prevent recurrence.
- Authored an internal **Python script** that accelerated the diagnosis of complex system anomalies by analyzing **log data** from multiple sources, improving mean time to resolution by **15%**.
- Contributed to the evolution of daily operations by identifying and implementing improvements in **availability**, **reliability**, and **performance** across the European Sovereign Cloud.
- Containerized key operational tooling using **Docker**, facilitating consistent deployment and management across different environments within the cloud infrastructure.

SKILLS

Cloud Platforms – AWS, EC2, S3, Lambda, CloudWatch

Scripting Languages – Python, Shell Scripting

Operating Systems – Linux

Containerization – Docker

CI/CD – Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Observability – Splunk, Dynatrace

PROJECTS

European Sovereign Cloud Operations Enhancement

- Engineered automation scripts in **Python** to streamline deployment and monitoring of core **AWS services** like **EC2** and **S3** for the European Sovereign Cloud.
- Implemented enhanced logging and alerting mechanisms using **CloudWatch**, providing real-time insights into system performance and enabling proactive issue detection.
- Developed containerized deployment packages for operational tools using **Docker**, ensuring consistency and ease of management across the cloud environment.

Automated Incident Triage and Root Cause Analysis Tool

- Developed a **Python**-based application to ingest and correlate **log data** from **Splunk** and **Dynatrace**, assisting in faster root cause identification for production incidents.
- Integrated with ticketing systems via APIs to automatically surface relevant incident details and past resolutions, reducing manual data aggregation time by approximately **30%**.
- Designed a user-friendly interface for analyzing correlated logs and system metrics, aiding operations teams in diagnosing complex issues more efficiently.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
