# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Managed design submittal reviews for **multiple data center projects** across various geographical regions, ensuring adherence to internal standards and reliability requirements.
- Served as a technical subject matter expert for the electrical engineering discipline, providing guidance on design concepts and equipment selection for **mission-critical facilities**.
- Supported the full lifecycle of engineering projects, from initial design and construction through commissioning and final turnover, maintaining **detailed documentation** and data integrity.
- Collaborated with cross-functional teams including **server hardware**, environmental health and safety, and controls engineering to integrate new services and upgrade existing infrastructure.
- Mentored and oversaw the technical work of **junior engineers** within the electrical discipline, fostering best practices and ensuring project alignment.
- Participated in daily interactions with diverse teams responsible for global AWS data centers, contributing to the delivery of high standards for safety and security.
- Developed **Python scripts** to automate data extraction and reporting for infrastructure equipment submittals, reducing manual processing time by approximately **30%**.

## SKILLS

**Data Center Design** – Electrical Engineering, Equipment Submittal Review, Design Concepts, Construction Drawings, Specifications

**Project Management** – Engineering Projects, Consultant Management, Stakeholder Engagement, Technical Estimation, Project Lifecycle Support

**Cloud Infrastructure** – AWS, EC2, S3, Lambda, CloudWatch

**Core Technologies** – Microsoft Office Suite (Outlook, Word, Excel), Python, Linux

**Operations & Support** – Commissioning, Operations, Field Engineering, Controls Engineering, Incident Response

## PROJECTS

### Data Center Electrical Infrastructure Upgrade

- Led the design review and equipment selection for a **large-scale electrical infrastructure upgrade** within a regional data center, focusing on enhancing power distribution reliability.
- Developed **technical specifications and construction drawings** in collaboration with external engineering consultants, ensuring compliance with regional building codes and AWS standards.
- Coordinated with site operations and commissioning teams to validate the installed equipment against design intent, resolving **design-related queries** during the build phase.

### Automated Equipment Submittal Processing

- Engineered a **Python-based automation tool** to process and categorize equipment submittal documents for multiple concurrent data center projects.
- Integrated the tool with **AWS S3** for document storage and retrieval, improving accessibility for design and field engineering teams.
- Implemented data validation checks to ensure consistency across submittals, reducing data entry errors by an estimated **22%**.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
