HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for core platform features, handling request validation and circuit-breaker patterns for improved resilience.
- Developed and maintained **JPA** entities and performed complex queries against **PostgreSQL** and **MySQL** databases, ensuring data integrity and efficient data retrieval for enterprise applications.
- Authored **JUnit** tests and integrated mocking frameworks to achieve over 90% code coverage for critical Java modules, enhancing code quality and stability.
- Mentored three junior engineers on **Java** development best practices and conducted thorough code reviews, improving team output velocity by approximately 15% per sprint.
- Contributed to the design and implementation of a **next-generation telephony platform**, focusing on self-healing capabilities and scalable architecture on **AWS**.
- Participated in **Agile** ceremonies, including sprint planning and technical estimation, for the development of internal communication systems.
- Containerized applications using **Docker** and deployed them to an **AWS EKS** cluster, configuring basic resource limits and managing container lifecycles.

SKILLS

Languages – Java, Python, SQL, PowerShell, Ruby, C++

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch, EKS), Docker, Jenkins, Git, CI/CD

Backend Frameworks – Spring Boot, JPA, Hibernate, FastAPI, Flask

Databases – PostgreSQL, MySQL, Oracle

Operating Systems – Linux, Windows

Methodologies – Agile, Scrum

Networking – TCP/IP, DNS, HTTP

PROJECTS

AWS Telephony Platform Enhancement

- Developed Python scripts to automate the provisioning and configuration of new telephony service instances on **AWS**, reducing manual setup time by 40%.
- Implemented self-healing mechanisms for critical communication services using **CloudWatch** alarms and Lambda functions, decreasing system downtime incidents by 22%.
- Designed and documented REST API contracts for inter-service communication within the telephony platform, ensuring seamless integration with other enterprise systems.

Internal Communications System API Development

- Engineered a **Java Spring Boot** backend service to manage user profiles and communication preferences, integrating with an existing enterprise directory.
- Wrote comprehensive unit and integration tests using **JUnit** and Mockito, achieving 95% code coverage for the user profile management module.
- Deployed the service as a containerized application on **AWS ECS**, managing configurations via environment variables and ensuring reliable operation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
