HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices for backend systems, focusing on REST API design and implementation.
- Designed and implemented efficient data persistence layers using **Hibernate** and **JPA**, managing complex object-relational mappings for enterprise applications.
- Constructed reusable software components and libraries using **Java EE** principles and design patterns, ensuring high code quality through **JUnit** and **Mockito** testing.
- Contributed to the design and execution of complex, time-critical production changes across multiple interconnected systems, coordinating with operations and business analysts.
- Participated in **Agile Scrum** ceremonies, providing technical estimations for sprint planning and conducting thorough code reviews to maintain team standards.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, ensuring consistent environments and simplified deployment pipelines.
- Managed production incidents for enterprise-grade applications, performing root cause analysis and implementing fixes within strict **SLA** adherence on a P1/P2 on-call rotation.

SKILLS

Languages – Java, Python, SQL, R, Bash

Frameworks/Libraries – Spring Boot, Hibernate, JPA, Spring Security, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, RStudio

Concepts – REST APIs, Microservices, CI/CD, Agile Methodologies, Production Support, Incident Management, Data Analytics, Machine Learning Fundamentals, ETL

PROJECTS

Enterprise Java Backend Service Modernization

- Re-architected a monolithic Java application into a suite of **Spring Boot** microservices, improving modularity and maintainability for core business logic.
- Integrated **Hibernate** and **JPA** to manage persistence for over 50 entities across multiple PostgreSQL databases, optimizing query performance by **18%**.
- Developed comprehensive RESTful APIs for inter-service communication, ensuring **100%** request validation and implementing circuit-breaker patterns for fault tolerance.

AWS Cloud Operations Automation Suite

- Automated routine **AWS EC2** instance management tasks using Python scripts, reducing manual intervention by approximately **4 hours** per week for the operations team.
- Developed **Docker** containerization strategies for deployment pipelines, ensuring consistency across development, testing, and production environments on **AWS**.
- Implemented automated monitoring and alerting using **AWS CloudWatch** logs and metrics, proactively identifying and resolving potential issues before they impacted service availability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
