HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **REST APIs** in **Java Spring Boot** for inter-service communication, handling approximately 1,500 requests per minute during peak hours.
- Developed and maintained **Hibernate** entities and JPA repositories for a critical financial reporting module, ensuring data integrity across multiple relational databases.
- Authored comprehensive unit and integration tests using **JUnit** and **Mockito**, increasing code coverage by 18% for key Java Spring Boot services.
- Contributed to the operational health of the European Sovereign Cloud by reviewing and approving **change management** documents for system updates.
- Participated in **on-call rotations** to address and resolve production incidents, performing root cause analysis to prevent recurrence.
- Collaborated with senior engineers to review code, identify potential issues, and ensure adherence to coding standards within the team's development lifecycle.
- Containerized several microservices using **Docker** and managed their deployment pipelines via **Jenkins**, streamlining the build and release process on **AWS EC2**.

SKILLS

Cloud Platform – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Linux, Shell Scripting

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

PROJECTS

Java Spring Boot Microservices for Enterprise Operations

- Developed a suite of **Java Spring Boot microservices** to manage operational workflows and reporting for enterprise systems, processing an average of 2,000 events daily.
- Integrated services with **PostgreSQL** databases using **Hibernate** for data persistence and retrieval, managing schema evolution and optimizing query performance.
- Implemented robust error handling and logging mechanisms using **Spring Boot Actuator** and **Splunk** integration, reducing critical incident response time by 22%.

AWS Cloud Infrastructure Automation with Jenkins

- Automated the provisioning and configuration of **AWS EC2** instances and **S3** buckets using **Jenkins** pipelines and shell scripting, enabling faster environment setup for development teams.
- Containerized application components using **Docker**, creating standardized images that improved deployment consistency across development, staging, and production environments.
- Configured **AWS CloudWatch** alarms and dashboards to monitor application performance and resource utilization, proactively identifying potential bottlenecks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
