PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Collected and analyzed information related to software and digital SoC projects, developing and maintaining **interactive dashboards** that tracked status across a diverse portfolio of **15+ projects**.
- Engaged with cross-functional teams including product management, engineering, and project management to generate clear insights into **project and portfolio health**, identifying risks and dependencies.
- Generated regular project and portfolio status reports, emphasizing meaningful changes and risks, and assisted in developing standardized practices for **new project intake**.
- Supported enterprise business systems by coordinating change-control management for system configuration updates, UAT coordination, and post-go-live support across **interconnected systems**.
- Developed and maintained **Python scripts** for data analysis and automation, streamlining reporting processes and enhancing data validation for operational teams.
- Participated in Agile/Scrum ceremonies, including sprint planning and retrospectives, contributing to efficient defect tracking and resolution within **Jira and Confluence**.
- Managed production support and monitoring of enterprise applications using **Splunk and Dynatrace**, ensuring SLA adherence and responding to P1/P2 incidents to maintain operational stability.

SKILLS

Business Intelligence – Power BI, Tableau, DAX, Power Query, Data Modelling, Dashboards, Business Analytics

Programming Languages – Python, SQL, Java, R

Data Analysis & ML – pandas, NumPy, scikit-learn, Statistical Analysis, Exploratory Data Analysis, Machine Learning Fundamentals

Tools & Platforms – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins, Jira, Confluence, Splunk, Dynatrace

Backend Development – Java Spring Boot, REST APIs, Microservices

Databases – PostgreSQL, MySQL, Oracle, Data Warehousing

PROJECTS

Product Portfolio Health Dashboard

- Developed an interactive **Power BI dashboard** to visualize project status, risks, and dependencies for a portfolio of **20+ software and SoC projects**.
- Integrated data from multiple sources using **Power Query**, performing data transformations and modeling to ensure accurate and timely reporting for stakeholders.
- Implemented **DAX measures** to calculate key performance indicators and trends, providing actionable insights into project execution and resource allocation.

Automated Reporting for Operational Metrics

- Created **Python scripts** to automate the generation of weekly operational reports, consolidating data from production monitoring tools and databases.
- Designed and implemented data extraction and transformation logic using **pandas**, reducing manual reporting effort by approximately **15 hours per week**.
- Stored generated reports in **AWS S3** for easy access by operations teams, improving data accessibility and workflow efficiency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
