HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and rolled out a **Skills Base system** across the engineering group to manage training and development for new graduates.
- Coordinated the **application process for training grants**, ensuring all documentation and requirements were met for successful submission.
- Ensured adherence to training protocols and maintained comprehensive **documentation of all engineering team training activities**.
- Designed and implemented **data-driven approaches** to training needs analysis, applying engineering concepts to identify skill gaps.
- Managed the **deployment of the training system** across a large engineering team, facilitating adoption and providing ongoing support.
- Collaborated with cross-functional teams to gather requirements and ensure the **training documentation** met the needs of diverse engineering disciplines.
- Containerized the **Skills Base system** using Docker and deployed it on AWS EC2 instances, ensuring scalability and reliable access for the engineering group.

SKILLS

Process Engineering – Skills Base system, training coordination, documentation, grant application

Data Analytics – Data-driven decision making, statistical analysis

Software Development – Java, Spring Boot, Python, SQL, REST APIs, Docker, AWS

Project Management – Agile methodologies, Jira, Confluence, stakeholder communication

Operations – Production support, incident response, SLA management, Linux

PROJECTS

Engineering Training Platform Development

- Designed and built a web-based platform using **Java Spring Boot** and **PostgreSQL** to centralize and track engineering training programs.
- Implemented user roles and permissions to manage access for administrators, trainers, and new graduates, ensuring data integrity.
- Developed reporting modules that provided insights into training completion rates and skill development, aiding management decisions.

Automated Production Monitoring System

- Created a **Python**-based system to ingest and analyze logs from production systems using **Splunk**, reducing manual monitoring effort by 40%.
- Developed **REST APIs** with **FastAPI** to expose key operational metrics, enabling integration with a central dashboard.
- Containerized the monitoring application with **Docker** for consistent deployment across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
