PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and implemented pricing strategies for assigned product portfolios, aligning with **product strategy**, market dynamics, and financial goals to support revenue growth and margin protection.
- Processed **quotes accurately** within SLA targets, escalating strategic, high-volume, or high-value requests to relevant stakeholders for timely resolution.
- Ensured pricing decisions adhered to channel margin policy, end-customer price consistency, and all **approval requirements**, maintaining pricing compliance.
- Challenged pricing actions that risked margin leakage or missed value-capture opportunities, collaborating with **Business Units** and Sales to maintain price integrity.
- Analyzed **pipeline, quote conversion, revenue, and margin trends** using data from reporting tools, recommending optimization opportunities to senior management.
- Identified and recommended scalable improvements for pricing processes, supporting **tool enhancements** and knowledge sharing initiatives across Pricing, Sales, and Finance.
- Containerized pricing support tools and automated reporting scripts using **Docker** and deployed them on **AWS EC2** instances, improving deployment speed by **30%**.

SKILLS

Pricing & Strategy – Portfolio Pricing, Quote Execution, Margin Protection, Market Intelligence, Pricing Compliance, Value Capture

Analytics & Tools – Power BI, Microsoft Excel, SAP, Model N, Pricefx, CRM, ERP

Business Operations – Sales Operations, Finance, Contract Management, Commercial Operations, Stakeholder Management, SLA Management

Programming & Scripting – Python, SQL, Java, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, CloudWatch), Docker, Jenkins, Git

PROJECTS

Pricing Strategy Optimization for Enterprise Software

- Developed a comprehensive pricing strategy for a suite of enterprise software products, analyzing market position, customer needs, and competitive landscape to inform price adjustments.
- Built interactive **Power BI dashboards** to visualize quote conversion rates, revenue trends, and margin performance across different product lines, enabling data-driven decision-making for sales leadership.
- Automated the generation of weekly pricing performance reports using **Python** and SQL, reducing manual effort by approximately **15 hours** per month and improving data accuracy.

Quote Management Automation Tool

- Designed and implemented a Python-based tool to streamline the processing of high-volume customer quotes, integrating with existing ERP data sources.
- Integrated the tool with a **REST API** to fetch real-time product and pricing information, ensuring quotes were generated with up-to-date data and reducing errors by **22%**.
- Collaborated with the sales operations team to gather requirements and conduct User Acceptance Testing (UAT), ensuring the tool met business needs for efficient quote execution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
