HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for cross-service data exchange, implementing input validation and circuit-breaker patterns to enhance system resilience.
- Engineered **Python** scripts for automating data extraction and transformation tasks, supporting scheduled reporting for operational teams and reducing manual effort by approximately **15%**.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to service level agreements.
- Designed and presented **business reports** and operational insights to stakeholders, translating complex data into actionable recommendations for process improvement.
- Investigated and resolved technical and process-related problems within the AppleCare operations, performing root cause analysis and implementing corrective actions.
- Coordinated and managed projects focused on **business process re-engineering**, collaborating with cross-functional teams to streamline workflows and enhance operational efficiency.
- Containerised applications using **Docker** and managed deployments on **AWS EC2** instances, contributing to improved deployment consistency and scalability.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum, Business Process Re-engineering

Domain Knowledge – Data Analytics, Business Reporting, Operations Management, Customer Support

PROJECTS

Enterprise Application Support and Automation (HCL Technologies)

- Provided production support for critical enterprise applications, including incident response and root cause analysis using **Splunk** and **Dynatrace**, maintaining high availability for core business functions.
- Developed **Python** automation scripts to streamline data ingestion and ETL processes, improving data accuracy and reducing manual processing time by an estimated **10%**.
- Collaborated with operations teams to gather requirements for enhanced monitoring dashboards, contributing to a more proactive approach to system health management.

Business Intelligence and Reporting Platform (MSc Data Analytics)

- Designed and deployed interactive **Power BI** dashboards for business stakeholders, visualizing key performance indicators and operational metrics to support data-driven decision-making.
- Performed data modelling and ETL using **Power Query** to integrate data from multiple sources, ensuring data integrity for reporting and analysis.
- Analyzed datasets using **SQL** and **pandas** to identify trends and provide insights that informed strategic planning for a simulated business case.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
