HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** RESTful APIs for enterprise systems, handling approximately 1,500 requests per minute during peak hours.
- Implemented robust data validation and error handling for transactional data processing, ensuring data integrity across multiple financial service client integrations.
- Automated repetitive data extraction and reporting tasks using **Python** scripts, reducing manual effort by 15 hours per week for the operations team.
- Managed and resolved critical production incidents (P1/P2) for enterprise applications, maintaining service level agreements through effective root cause analysis and timely remediation.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements, support user acceptance testing, and triage post-implementation issues for system updates.
- Designed and implemented **quality management systems** and factory-specific quality processes, including Incoming Quality Check and Outgoing Product Audits, to enhance manufacturing quality.
- Analyzed and improved manufacturing processes by applying **lean manufacturing principles** and data-driven insights, contributing to product quality enhancements.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, Linux Shell Scripting

Engineering Concepts – Quality Engineering, New Product Introduction, Manufacturing Process Improvement, Data Analysis, Lean Manufacturing, Error Prevention

PROJECTS

Enterprise Application Production Support Enhancement

- Streamlined production support workflows for enterprise Java applications by enhancing monitoring dashboards in **Splunk** and **Dynatrace**, enabling faster incident detection.
- Developed **Python** scripts to automate log analysis and health checks, reducing average incident triage time by 20% for the support team.
- Documented incident response procedures and created runbooks for common issues, improving knowledge sharing across the 8-person support team.

Manufacturing Quality Process Improvement Initiative

- Designed and implemented a new **Outgoing Product Audit** process, integrating data from factory floor systems to ensure compliance with quality standards.
- Performed **data analysis** on factory quality metrics to identify key areas for yield improvement, presenting findings to multi-functional engineering teams.
- Contributed to the development of **quality management systems** documentation, ensuring adherence to standard operating procedures and good manufacturing practices.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
